Brother Steve informed the Board members that the Supreme Secretary's Report will differ from the Supreme Treasurer's Report due to the fact that the Secretary's Report is presented on an accrual basis while the Treasurer's Report is presented on a cash basis. Brother Secretary further commented that the organization's Solvency Ratio remains financially sound at 113.08%.

A motion to accept the report for discussion purposes only was made by Supreme Treasurer, Dennis J. Zifcak, seconded by Supreme Director of Sports and Athletics, Edward D. Moeller. Approved.

Several questions were presented and addressed in a general discussion. Acceptance of the report was deferred until presentation of the Supreme Treasurer's Financial Report and the Supreme Auditors Annual Report. Acknowledged.

Supreme President, Larry M. Glugosh thanked the Supreme Secretary for his report and then called upon the Supreme Treasurer, Dennis J. Zifcak for the Supreme Treasurer's Report.

DIRECTOR OF SALES AND MARKETING REPORT

Brother Suess reported that we experienced another year of growth.

Membership Report – The overall GAIN OF CERTIFICATES for the year 2014 totaled 279, which is a significant change from the past. The Two Year Insurance Certificate Comparison indicated that we experienced an improvement of 253 certificates gained in 2014 as compared to 2013. Membership Exhibit reflects that our membership INCREASED by 278. Our current membership total as of December 31, 2014 is 28,246. 2014 Insurance Issues showed that a total of 1,070 life insurance certificates were issued and 36 certificates were reinstated. New Member Annuities/Insurance - A total, of 1,131 individuals joined our society as new members. Insurance Outs – Brother Suess reported that there were 404 death claims, 220 were surrendered, 142 lapsed, 28 were cancelled, 3 certificates matured and 30 expired. The total of insurance certificate losses for 2014 totaled 827.

The Director of Sales and Marketing then discussed at length the **New Business** submitted in the year 2014. The report broke down, the business sold by type of business and each particular plan of insurance. It also showed the comparison of business between the current year and the previous year. A statistical growth comparison was presented for the business from 2001 through 2014. This would serve as a way of projecting our future growth. From a sales perspective for the year 2014, the goal to increase our life and annuity business for exceeded our projections as indicated by the final results.

Brother Suess explained the increase in certificates and the increase of the face amounts being issued. The growth perspective for the year 2015 is to increase our life and annuity business between 5 to 6%. Life insurance premium income is projected at an much higher rate of 10%. This is due based on the accumulation of projected new business premiums and expected premiums from Legacy Life and Legacy 20 prior year sales in 2013 and 2014. We should expect an increase in premium income from SPL sales.

The amount of Premium Income received for the year was \$1,098,986, and the Annuity Income amounted to \$6,895,408, for a grand total of \$7,994,394.

Brother Suess updated the Board members regarding the implemented Fraternal Benefit extended to our Groups, Assemblies and Wreath known as the **Sokol Secure Fund**. A total of fourteen accounts have been established to date and including interest amounts to \$319,274.00. Several other Groups, Assemblies and Wreaths have indicated their desire to take advantage of the 2.5% interest rate that is being offered.

As far as the marketing efforts for the organization, Brother Suess reported on the **Fraternal Brochure** promoting the society and advertising in Catholic Church Weekly Bulletins. In addition the **Slovak Catholic Sokol Information Booklet** is a 14 page overview that will explain, introduce and provide information about the Slovak Catholic Sokol. This booklet will be used as part of a welcoming kit for new members. It will include a brief history and purpose of the society, fraternal and product information as well as contact information. Additionally we must do a better job of reaching our current membership and keep them aware of our many offerings, benefits and fraternal programs.

Additionally we are looking into doing Insurance/Fraternal Seminars and Reaching Out to our Groups for more involvement.

Brother Suess also informed the Board members regarding the need to have a reinsurer.

Products – Currently we are performing research on developing a new life insurance plan that would provide either a guaranteed insurance or a graded death benefit options. This product would be primarily to the Baby Boomers Age Group serving as a Final Expense Option limited to a Face Amount of \$25,000.

<u>Catholic Education Assistance Program – This program is designed for Catholic</u> Elementary and Catholic High Schools. The purpose is to assist in providing funds, used for educational purposes and offer all Slovak Catholic Sokol products – Life & Annuity Products, in return Sokol will donate \$25 to the private school for every qualified life insurance and annuity plan.

Agent Recruitment – To date we have 157 Authorized Agents/Agencies currently appointed to sell our life and annuity products. We will continue to recruit agents at the same rate, building slowly and working out any problems.

Web-Site This continues to evolve over time, we will continue to add information and improve navigation. As was emphasized throughout the year, it is important to continually update the information and keep the site current with up to date information especially our sporting events and promotion of same.

Administrative Software – Throughout the past year we have been working on the conversion of the current software and converting existing data to the new system. There are problems that are being worked out.

Brother Suess reported on his attendance at various other meetings such as the Fraternal Societies of Greater Pittsburgh, PA F.I.C.'s, Fraternal Sales Directors Meetings, PA Fraternal Alliance and Fraternal and Communication Section meetings.

ACCOUNTANTS REPORT

The Board members welcomed Mr. Eglow who expressed his thanks for the opportunity to present an overview of the year 2014.

It seems as it was just a short time ago when we all met at last year's meeting and now another year has gone by for us to review the past year's activities and accomplishments. Let's talk and review this past year's activities and accomplishments.

Your admitted assets is comprised primarily of Cash Bonds, Common Stocks and Mortgages and amounted to \$69,651,000 as compared to \$63,817,000 for the year 2013, an increase of \$5,834,000. This is the fourth year wherein you're admitted assets increased by \$5,000,000.

Life reserves which is your largest liability, actuarially conceived, amounted to \$51,601,000 as compared to \$44,608,000 for the prior year.

This also includes a surplus decrease adjustment of \$1,864,000 for a premium deficiency reserve. Your actuary sought permission from the NJ Insurance Dept to amortize this reserve but the state said SCS surplus was strong enough to absorb the charge.

The liquidity strength of your society continues to be very strong. For every \$100 that you owe you have \$113 in viable assets. For the year 2013, the ratio was \$118. Remember, the more annuity funds taken in will impact this ratio as assets rise, so does liabilities. The quick ratio which is your bonds, stocks and cash, indicated you had \$110 to cover \$100 in liabilities as compared to \$115 in 2013. Further, these same assets exceed the life reserve by \$16,000,000 in 2014 and \$17,000,000 in 2013. Another factor is the Risk Based Capital Ratio, otherwise known as the RBC ratio. This has become the defining ratio for establishing liquidity. This is determined by your actuary. For 2014 it was approximately at the 10 level and 2013 it was at 11 level. All of these statistics are assuring your society is sufficiently funded to meet all membership benefit claims.

Surplus, otherwise known as the member's equity was \$8,055,000 at year end compared to \$10,094,000 for the prior year. On the other side of the ledger, though we had a loss from operations in the amount of \$647,000. In 2013, the loss was \$452,000. It was noted that your society has embarked on reducing operating costs and we look for further positive impacts.

This also includes a surplus adjustment of \$1,864,000 for a premium deficiency reserve.

The year 2014 for the stock market could be described as upward and positive and realized your society benefited from it. You realized capital gains of \$925,000. The realized gain of \$925,000 overcame the loss from operations and your society earned a net income in the amount of \$278,000. The aggressive posture of your custodian should continue so you can convert this unrealized into actuality that will offset operating losses.

Premium income this year from your membership was \$1,035,000 as compared to \$702,000 in 2013. Annuity income in 2014 was \$6,876,000 as compared to \$3,820,000 in the prior year.

Net investment income was \$2,661,000 in 2014 as compared to \$2,538,000 in 2013. Low bond interest rates continue its impact.

Incurred membership benefits comprised of deaths, maturities, annuity withdrawal's and surrenders increased over the prior year. These benefits amounted to \$4,045,000 compared to \$3,738,000 for the year 2013. In 2014, members withdrew \$2,902,000 of their annuity investments for the year.

We realize that you have limited control on the amount of membership claims so we urge you to continue to take the hard look at all expenses for the prime purpose of achieving maximum activity within the membership at holding costs with a concommited increase in membership numbers and premium income. Fraternal expenses are necessary to attract, sustain and stir the interests and keep the activities at a high level for prospective growth.

The general and tax expenses before allocation amounted to \$2,204,000. In 2013 it was \$2,106,000.

Divided declaration of \$50,000 was the same as the prior year.

The major problem facing this organization (as well as other ethnic fraternal societies) is attracting members and the premium income that goes along with it. For the year 2014 there were 31,355 membership certificates of which 27,839 were paid up. In 2013 there were 31,076 at the end of the year of which 28,087 were paid up.

In the past two years you have attracted substantial investments in annuity investments and as a result the society struck an aggressive pose by realizing gains rather than allowing it just to appreciate. Investing realized gains provides additional cash that also provides income compounding. Further, investing for annuity money is different and must be structured to yield at least 1% after cost to make it worthwhile for this project. It's a bit complicated but a thorough study is required by your investment counselors to insure the monetizing of annuity funds provides your society with sufficient investment income to pay the member as well as the Society. There are ample amounts of bonds maturing in these next three years and they need to be invested for accomplishing the objectives we have cited here in.

Let's continue to look positively ahead and all join hands to build a membership and solidify your society for the benefit of this very unique institution.

Please note that there was a continued increase in certificates in contrast to a decline in the past years.

During the year 2014, the Society engaged Pin Point to perform accounting & other program service. Though we encountered the normal transformation difficulties, we anticipate a smoother 2015.

The New Jersey Insurance Department completed its four year audit for the year ended December 31, 2012 in 2014. This comprehensive audit resulted in a very successful acceptance of your financial status for this four year period including a reduction in the audit fee charged by the NJDOBI.

We indeed thank the officers and the home office staff for their cooperation and

assistance in enabling our firm to perform our service. Very truly yours, Alvin S. Eglow, CPA Vision Financial Group CPAs, LLP

Supreme Secretary, Steven M. Pogorelec asked Mr. Eglow to explain several line items in the Annual Statement for the Board members to be aware of. A very lengthy and general discussion took place and numerous questions were presented and addressed.

Following the presentation, the Board members expressed their thanks to Mr. Eglow and mutually agreed to accept his report. Acknowledged.

President Glugosh thanked Mr. Eglow and stated that the next item on the agenda was a presentation and report from Mr. Thomas Calimano, Senior Vice President/Market Director, PNC Institutional Investments, the Slovak Catholic Sokol Portfolio Manager.

PNC ADVISORS REPORT

Mr. Calimano reviewed the investment account. As of December 31, 2014, total assets in the Slovak Catholic Sokol investment account were \$71,045,772. Bonds represented 84.2% of the account; Stocks, 14.1%; and Cash Equivalents 1.7% of the portfolio.

For the twelve months ended December 31, 2014, the portfolio's total return was 7.77% versus 4.53% for the Weighted Index. The total portfolio has increased 7.40%, 7.71%, 6.27% and 7.33%, on a compounded basis, for the three, five, ten and 20 years ended October 31, 2014 versus the 4.52%, 5.24%, 4.67% and 6.27% returns of the Weighted Index respectively. The portfolio' performance continued to benefit from the rise in long term bond prices during the fourth quarter and continued strong equity markets. The rise in bond prices also made the fourth quarter a challenging period for new fixed income investments as yields were compressed. The bond portfolio is 83.7% invested in corporate bonds and 16.2% invested in US Government and Federal Agency Obligations with an average quality rating of A and an average coupon of 5.13%. The portfolio's fixed income strategy continued to focus on quality, coupon and maturity which increased estimated annual income and position the portfolio to outperform the benchmark index. During the one year ended December 31, 2014 of the year the bond portfolio rose 7.30% which outperformed the 5.97% return of the Barclay's Aggregate Index. PNC's outlook is for the Federal Reserve will begin increasing short term interest rates, as measured by the Federal Funds Rate, during the third quarter of 2015. The portfolio's annualized income as of December 31, 2014 was \$3,045,514. The bond portfolio has increased 5.55%, 6.42%, and 5.87% on a compounded basis, for the three, five, and ten years ended December 31, 2014 versus the 2.66%, 4.45%, and 4.71% returns of the Barclay's Aggregate Index, respectively. Equities had a total return of 10.09% versus the 13.69% return of the Standard & Poor's 500 for the one year ended December 31, 2014. The dividend focus strategy, is value strategy, which positions the equity portfolio to invest in companies that have a growing income stream providing them with the ability to grow their dividends and have above benchmark dividend yields. The strategy positions the equity portfolio to outperform when stocks decline while fully participating in advancing markets. The equity portfolio has increased 19.06%, 15.38%, and 8.09% on a compounded basis, for the three, five, and ten years ended December 31, 2014 versus the 20.41%, 15.45%, and 7.67% returns of the Standard & Poor's 500, respectively. Cash Equivalents returned 0.03% compared to the 0.03% return for the Citigroup 90 day Treasury Bill index for the one year ended December 31, 2014.

The domestic economy continued to rebound during the final quarter of 2014 and the economy grew 2.4% for 2014 and forecasts 3.2% growth in 2015 led by consumer spending, business investment and a continued moderate recovery in housing. Inflation has remained below the Federal Reserve's target of 2% because of the precipitous drop in oil prices and continued moderate wage gains. PNC forecast for inflation, as measured by the CPI, is an increase of 1.6% for all of 2014 and a modest increase of 0.6% for the full year 2015. Following the strong job gains in 2014, PNC expects job growth to average 250,000 jobs per month in 2015. This level of job growth would lower the unemployment rate from 6.2% at year end 2014 and 5.3% by year end 2015. The combination of continued growth in employment in 2015 translating into improving wages, lower energy prices and improved home prices supports improved consumer confidence and PNC's outlook for improved consumer spending. The risks to PNC's conservative but positive economic outlook for 2015 may arise from the effects of a slow growth and slowing growth worldwide economies or unanticipated increased worldwide geopolitical tensions.

Stocks are neither undervalued nor overvalued but based on a S&P 500 earnings estimate of \$121 we would expect further moderate appreciation in 2015. The portfolio's dividend strategy is a conservative strategy that positions the equity portfolio to fully participate in market advances, manage risk through its focus on value and generates a higher income stream than the benchmark index.

Fixed income returns may be moderate because of an improving economy and the potential for the Federal Reserve to increase short term interest rates in the third quarter of 2015. Although short rates will rise, we continue to be in a low interest environment. Longer term rate may be impacted the accommodative monetary policies around the world.

Mr. Calimano also discussed the portfolio's current asset allocation and the year to date and historic cash flows. He reviewed the equity and fixed income investments, the current investment strategies being employed to add incremental return to the portfolio. He then reviewed the recent and long term investment performance of the portfolio, the near term and long term growth of the portfolio and provided an overall relationship review.

The Board members presented some questions which were addressed by Mr. Calimano to the satisfaction of the Board members.

After the presentation, Mr. Calimano's report was mutually accepted by the Board and we are looking forward to continued positive results. Acknowledged.

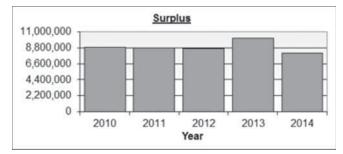

President Glugosh thanked Mr. Calimano and indicated that the next item on the agenda is the presentation of the Report from the Slovak Catholic Sokol Actuary, Mr. Allan Ferrone, FSA, MAAA, the S.C.S. Actuary with CPS Actuaries in Stamford, CT.

The Board members welcomed Mr. Ferrone who expressed his thanks for the opportunity to present an overview of the year 2014.

ACTUARY'S REPORT The following is our yearly report on the results of the Sokol's annual statement. Surplus

After increasing by almost \$1.4 million in 2013, surplus decreased by \$2 million in 2014. The following graph illustrates the recent trend in surplus.

The surplus increase in 2013 was \$1.4 million that was the result of a \$2.3 million increase in the common stock portfolio, which was more than enough to offset (a) losses from operations (-\$452,000), (b) an increase in the Asset Valuation Reserve (AVR) (-\$117,000), (c) an additional reserve as the result of the asset adequacy analysis (-\$300,000), and (d) costs associated with EDP equipment and software (-\$92,000).

In 2014, the surplus loss was due to (a) losses from operations (-\$647,000), (b) a deficiency reserve adjustment (-\$1.8 million), and (c) a reserve for an annuity policy that was not included in the prior year inforce file (-\$214,000). These losses were partially offset by the gains on the common stock portfolio (+\$850,000).

Reserve Issues

The deficiency reserve was an unexpectedly large amount and negatively impacted surplus. This reserve item is necessary when the premium being charged to a member is less than the premium used to calculate the reserve. This situation arose when policies were issued with a face amount that is \$50,000 or larger.

We developed the current premium rates in 2011 at a time when the interest rate for reserves was at 4%. The premiums at bands less than \$50,000 were developed to basically eliminate the need for deficiency reserves (i.e., the premium rates that you were going to charge were greater than or equal to the reserve premium). For face amounts greater than \$50,000, there was a premium reduction per \$1,000 of face amount that results in the Sokol charging less than the valuation net premium and therefore requiring deficiency reserves. Since it was indicated to us at the time that the premiums were developed that the majority of the face amounts sold would be in the \$10,000 to \$25,000 range at issue ages 0 to 55, we did not feel that the deficiency reserves would have a material impact on the annual statement. For the policies issued up through 2012, the total deficiency reserve as of December 31, 2014 was less than \$30,000.

As of January 1, 2013, the maximum valuation interest rate decreased from 4% to 3.5%. This increased the reserve premium but the Sokol did not want to increase the premiums at that time; this meant that deficiency reserves would be larger than they were when the valuation rate was 4%. However, as of January 1, 2013 the Sokol had issued very few policies with face amounts of \$50,000 or higher and therefore deficiency reserves were expected to be manageable.

Beginning around April, 2013, the Sokol started to issue policies with face amounts of \$50,000 and greater and these sales dramatically changed the amount of deficiency reserves that needed to be held. Unfortunately, due to the way that the reserve premiums are provided to us by the administration system, we did not discover how much additional deficiency reserves were required until the September 30, 2014 quarterly statement was prepared.

Beginning on December 1, 2014, new premium rates were developed that increased the whole life, 20 pay life, and 10 pay life premiums. These new premiums have mostly eliminated the deficiency reserves on the new issues. We ran a calculation to determine the deficiency reserve on all policies issued from April, 2013 through November, 2014 and determined that if the policies inforce had been charged the new premium rates then the total deficiency reserve would have been less than \$50,000.

When establishing the deficiency reserve, it should be noted that the liability is set up on the issue date of the policy and the amount will gradually be reduced over the premium-paying period. For a 20 payment life policy, the deficiency reserve will gradually decrease over 20 years; for a whole life policy, the deficiency reserve decreases over the life of the policy. Once a policy terminates (e.g., death, surrender, lapse), then the deficiency reserve will also be released. Essentially, an additional reserve is being setup on the issue date (which hurts the current surplus), but then the reserve is gradually released over the life of the contract (which helps the surplus in future years).

Another reserve issue that has impacted the Sokol in recent years is the additional reserve that has been established as the result of the asset adequacy analysis. Since 2009, the additional reserve due to the asset adequacy analysis has gradually been increased and now stands at \$900,000. This year, the reserve was not increased primarily because of the additional deficiency reserve that was established. A good portion of the deficiency reserve will be released over the 20-year projection period, which helps the results of the analysis.

Asset adequacy analysis evaluates reserve adequacy for the lines of business issued by the Society by testing asset and liability cash flows while considering prevailing levels of interest rates. The goal of the analysis is to see whether the Society's various blocks of business would generate a surplus after 20 years under various interest rate scenarios using current assets, liabilities, and expense levels. The scenarios that we modeled are known as the "New York 7", and are as follow:

- 1. Level.
- Increasing 100 basis points (b.p.) per year for five years, then decreasing 100 b.p. per year for 5 years.
- 3. Increasing 50 b.p. per year for ten years.

- Increasing 300 b.p. immediately and level thereafter.
- Decreasing 100 b.p. per year for five years, then increasing 100 b.p. per year for 5 years.
- 6. Decreasing 50 b.p. per year for ten years.
- 7. Decreasing 300 b.p. immediately and level thereafter.

The analysis starts with assets equal to liabilities. Assumptions are made regarding deaths, cash surrenders, lapses, reinvestment interest rates, premium income on current inforce business (no new business is assumed in the analysis), and expenses. When developing the expense assumption, current expenses and taxes are reviewed. Since new business is not included in the analysis, all expenses associated with issuing a policy can be excluded (e.g., first year commissions, printing/postage costs for new policies, advertising). Certain fraternal expenses are also excluded because we contend that these expenses are not necessary for administering the business. Fraternal expenses that are excluded include the publication costs, travelling expenses that can be excluded from the analysis, the smaller the additional reserve that will need to be setup.

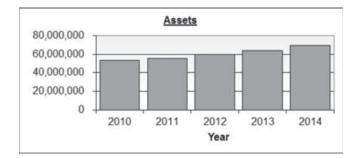

One of the issues that is getting the attention of regulators is the amount of expenses that are being excluded. In the case of the Sokol, we argue that the excluded expenses can be supported by the earnings on surplus.

Another major factor in the analysis is the reinvestment assumption. The projection models the current assets and when bonds mature these funds need to be reinvested. The amount that is earned when the assets are reinvested depends upon the interest rate scenario. In the level and decreasing scenarios, the resulting new purchases often will have a lower yield rate than the maturing assets; this puts a further strain on the projection results.

The results of the analysis show that the Society would benefit if interest rates were to increase since maturing assets would be reinvested in higher-yielding bonds and it is not expected that surrenders would increase above current levels in these increasing scenarios. On the other hand, the Society's results would worsen considerably if interest rates were to decrease from current levels due to the fact that guaranteed interest rates in the policy forms would eventually be greater than the rates that are earned on the assets.

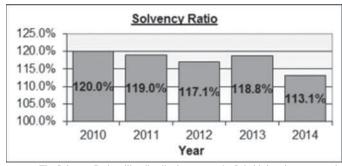

Based on the analysis, the additional reserve remained at \$900,000. This represents less than 2% of your total life and annuity reserves. The insurance departments have recently been looking at these results much more closely and it may not be possible to avoid more reserves in the future based on their requirements. It may turn out that the \$900,000 is not a sufficient amount if the Society's operational results do not begin to show some gains. **Assets**

Assets continue to increase. After increasing by \$4.1 million in 2013, assets increased by more than \$5.8 million in 2014. Assets now stand at just under \$70 million, which is another all-time high for the Sokol. The following graph shows the trend in assets since 2010:

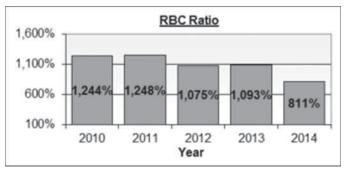

In 2014, assets increased primarily because of (a) \$6.9 million of annuity premiums, (b) an increase in life insurance premiums of nearly \$400,000 more than was collected in 2013, and (c) the \$850,000 increase in the common stock portfolio. **Solvency Ratio**

The solvency ratio decreased in 2014 due to the decrease in surplus. The graph below shows a 2014 solvency ratio of 113.1%, which means that the Sokol has \$113 of assets for each \$100 of liabilities. This is a still a very healthy ratio considering the size of the Sokol.

The Solvency Ratio will ordinarily decrease as the Sokol brings in more annuity premiums. As assets increase from new annuity premiums, the liabilities will increase by about the same amount, thus driving down the ratio.

A more recent method for measuring the financial health of an organization is to look at the Risk Based Capital (RBC) ratio. This ratio combines your surplus and AVR and divides it by a number that is related to the riskiness of your assets and your liabilities. The results of the calculation appear in the 5-Year Historical pages of the annual statement. The PA and IL Insurance Departments have indicated that they will start looking into a society much more closely when the ratio drops below 300%, whereas most other states use 200% as the guideline. The following graph shows the progression of the RBC Ratio over the last 5 years:

The Sokol's ratio of 811% is significantly higher than the 300% level that the regulators have used as a guideline for determining which societies are at a risk of not being able to meet their financial obligations in the near future. This year's ratio decreased for the following reasons:

- 1. The surplus decrease results in a smaller RBC ratio.
- The amount of common stocks owned increased, which increases the risk profile and therefore causes the ratio to go down.
- The increase in the annuity block of business increases the riskiness of the liabilities and therefore causes the ratio to go down.
- 4. A change in the way that the AVR is handled in the RBC calculation. Previously, the entire AVR was used when calculating the ratio; however, in 2014, only the portion of the AVR that was not used in the asset adequacy analysis can be used to calculate the RBC. Using a smaller AVR results in a smaller RBC ratio.

Operational Results

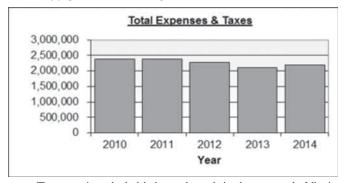

The Sokol continued the unfavorable trend of operational losses in 2014. Losses from operations mean that you are spending more money than you are making. The amount of money the Sokol collects from investment income and premiums is less than the money being paid out for benefits, expenses, dividends, and the amount needed to fund the required increases in reserves.

The table below shows the gain (loss) from operations before the payment of dividends, the dividends paid and the gain (loss) from operations after the payment of dividends.

| Year | Gain (Loss) | | Gain (Loss) |
|------|--------------|-----------|--------------|
| | Before Divs. | Dividends | After Divs. |
| 2010 | \$ (825,000) | \$ 75,000 | \$ (900,000) |
| 2011 | (554,000) | 50,000 | (604,000) |
| 2012 | (714,000) | 50,000 | (763,000) |
| 2013 | (616,000) | 50,000 | (666,000) |
| 2014 | (597,000) | 50,000 | (647,000) |

The items that have the largest impact on the Sokol's operational results are expenses and investment income.

Total expenses and taxes increased slightly after decreasing in both 2012 and 2013. The following graph shows the trend in expenses and taxes since 2010:

The expense items that had the largest change during the year were the following: (a) Costs associated with creating/printing/mailing the publication increased

- by \$17,000 after decreasing by \$103,000 in 2013.
 Salaries and benefits increased by \$110,000. Of this amount, \$84,000
- was an increase in pension benefits to long time employees that retired during the year.
- (c) Accounting and actuarial fees increased by \$17,000.
- (d) In 2013, the Sokol had a SLET which cost \$79,000; in 2014, there was a clinic that cost \$23,000. This resulted in a decrease in expenses of \$49,000.
- (e) The legal fees associated with the Ambridge Lodge were reduced by \$20,000.

Another item that is having a negative impact on the operations is the home office building. The following table shows the operational impact of owning the building over the last 4 years. As the rental income from the other tenants has decreased, the negative impact that the building is having on the operations has doubled in two years to more than \$130,000.

| Item | 2014 | 2013 | 2012 | 2011 |
|---------------------------------|-------------|-------------|-------------|-------------|
| Rental Income - From SCS | \$ 15,000 | \$ 15,000 | \$ 15,000 | \$ 15,000 |
| + Rental Income - Other Tenants | + 17,000 | +41,000 | + 80,000 | + 85,000 |
| - Real Estate Expenses | - 78,000 | - 81,000 | - 73,000 | - 72,000 |
| - Real Estate Taxes | - 83,000 | - 82,000 | - 79,000 | - 86,000 |
| - Depreciation | - 3,000 | - 3,000 | - 3,000 | - 3,000 |
| Total Operational Impact | (\$132,000) | (\$110,000) | (\$ 60,000) | (\$ 61,000) |

The operational loss has been heavily influenced recently by the low-yield rate that the Sokol earns on its investments. The table below shows the gross and net amounts of investment income, the overall gross investment income rate, and the net investment income rate over the last 5 years:

| Year | Gross Invest Income | Net Invest Income | Gross Rate | Net Rate |
|------|------------------------|----------------------|---------------|-------------|
| 2010 | \$ 2,548,000 | \$ 2,211,000 | 4.95% | 4.28% |
| 2011 | 2,589,000 | 2,363,000 | 4.88 | 4.45 |
| 2012 | 2,897,000 | 2,556,000 | 5.17 | 4.55 |
| 2013 | 2,896,000 | 2,537,000 | 4.81 | 4.20 |
| 2014 | 3,017,000 | 2,660,000 | 4.63 | 4.07 |

The following table shows the amount of new bonds purchased each year for the last 5 years, as well as the yield rate on the new purchases. After earning less than 4% in 2012 and 2013 on new purchases, the Sokol earned just over 4% on this year's purchases.

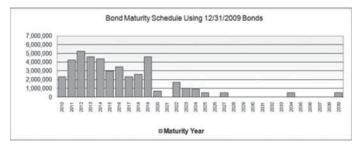

| Year | Amount Purchased | Yield Rate |
|------|---------------------|---------------|
| 2010 | \$11 million | 5.5% |
| 2011 | 8 million | 5.2% |
| 2012 | 9 million | 3.8% |
| 2013 | 5 million | 3.7% |
| 2014 | 11 million | 4.1% |

In 2014, the Sokol had \$2.5 million of bonds that matured as well as \$2.5 million of bonds that were sold or called prior to their maturity date. The average yield rate on these bonds was 4.7%. That means that you were earning \$235,000 on those bonds each year; when you reinvested those bonds and now earn a rate of 4.1%, it results in earnings of \$205,000; that's an annual loss of \$30,000 on those assets, which directly impacts the operational results.

It is a good practice to ladder maturities so that bonds will be maturing each year and that the assets will match the liability cash flows. The Sokol has begun to lengthen the maturity dates of its bond portfolio as evidenced by the new purchases described in the previous paragraph. More than 35% of the bond portfolio is still scheduled to mature in the next 5 years. However, if interest rates remain at such low levels then the Sokol will lose even more investment income on re-investment in the next few years, thus putting a further strain on the operations. For 2015, bonds totaling \$3.6 million are scheduled to mature and the average yield rate is around 4.6%.

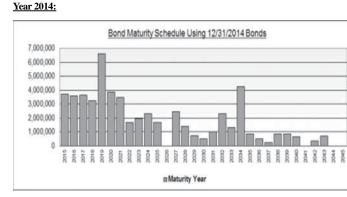

The following graphs show a comparison of the amount of bonds scheduled to mature each year based on the maturity dates of the 2009 and 2014 bond portfolios. Optimally, the Sokol would have bonds maturing for the next 20 to 30 years due to the long term nature of your liabilities. These graphs illustrate how the maturity schedule has changed from 2009 to 2014. It does illustrate how the Sokol has been extending its maturity dates.

<u>Year 2009:</u>

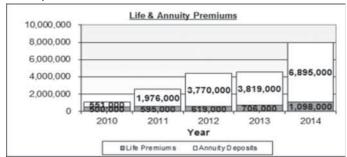

(Continued on page 10)

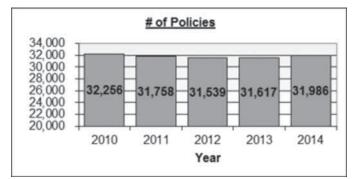

Another item that has an impact on operations is premium income. Premium income increased again in 2014. Both the life insurance premiums and the annuity premiums increased for the 4th year in a row. The life insurance premiums are now double the amount that they were in 2010. The following graph shows the trend in life and annuity premium income over the last 5 years:

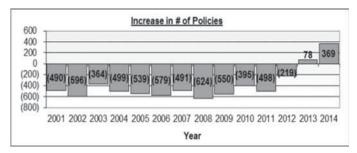

MEMBERSHIP INFORMATION

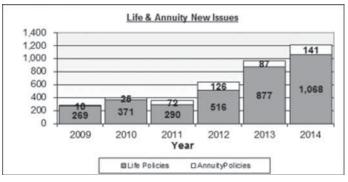

The number of life and annuity policies increased by 369 this year after increasing by 78 policies last year. The following graph shows the number of life and annuity policies inforce over the last 5 years:

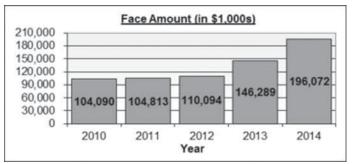

The following graph shows the Increase (Decrease) in the number of policies inforce each year since 2001.

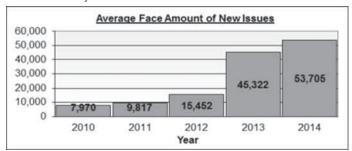

The reason the total number of policies increased was due to the increase in the number of new policies issued. The following graph shows the number of life (in blue) and annuity (in white) policies that have been issued each year since 2009. The Sokol has issued 4 times as many policies in 2014 than you issued in 2009.

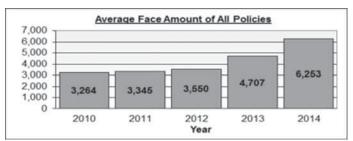

The Sokol has been issuing more policies and these policies have a much larger face amount as compared with the previously issued policies. As such, the total face amount inforce has nearly doubled over the last two years. After growing by \$5 million in 2012, the face amount inforce increased by \$36 million in 2013, and by \$50 million in 2014. The total face amount inforce is now \$196 million. The graph below shows the trend of insurance in force over the last 5 years.

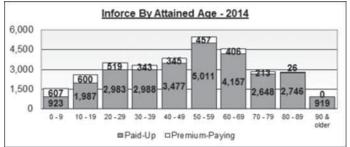

The large increase over the past two years was due to the fact that the average face amount for new issues has increased significantly. This year's average face amount for new issues was more than \$50,000. The following graph shows the average face amount of new issues over the last 5 years:

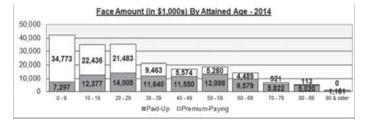

The following graphs show the attained age breakdown of the membership using the life insurance policies inforce at the end of 2014. It shows the number of policies in each 10-year age group, including the number of premium-paying cases (in white) and the paid-up cases (in black).

The following graph shows the face amount inforce by attained age as of 2014:

Some facts about the life insurance membership:

- Only 11.2% of the members are paying premiums, compared with 8.3% in 2012.
- The average age of the membership is 49.7 years old, which is a slight decrease from the average age of 50.0 in 2012.
- About 21% of the membership is age 70 or older. This means that about 1 out of 5 members are over the age of 70.

CONCLUSIONS

If not for the establishing of the deficiency reserves, the Sokol would have had a breakeven year financially. The gains on the common stocks were enough to offset the losses that again occurred in the operations. This year also saw continued increases in new policies and insurance inforce.

For 2015, the Sokol must focus on the operational results. The items that the Sokol can look at in order to help improve the operational results include (a) resolving the issues with regard to the Ambridge Lodge, (b) review the profitability of the home office building and determine whether the vacant office space should be rented or whether the building should be sold, (c) review whether or not to continue to credit dividends, and (d) review all of the credited interest rates, including the rates for the annuities and the dividend accumulations. Respectfully submitted,

CPS Actuaries

After a lively and lengthy discussion especially regarding the Premium Dificiency Reserve, the Board members thanked Mr. Ferrone for his report and his recommendations and suggestions and we will continue with our efforts to reduce expenses.

Acknowledged.

President Glugosh stated that the next agenda item would be the presentation of the preliminary Report of the Budget Committee. Supreme Treasurer, Dennis J. Zifcak was called upon to present the report.

BUDGET COMMITTEE REPORT

Supreme Treasurer, Dennis J. Zifcak, Chairperson of the Budget Committee reported that the committee which consisted of Supreme President, Larry M. Glugosh, Supreme Secretary, Steven M. Pogorelec, F.I.C., Chairperson of the Supreme Auditors, Michael J. Horvath, and himself had the opportunity to discuss via a conference call the proposed budget. Each member offered their input and reviewed the Income and Expenses for the year 2012, 2013 and 2014, and to prepare the preliminary 2015 Budget which Brother Zifcak then proceeded to present.

The Supreme Treasurer reviewed all the Income and Expense accounts and the method of determining the estimated 2014 figures.

It was suggested that we consider the "Wounded Warriors Project" as a good cause and Supreme Physical Directress, Kathleen S. Watkins agreed to oversee the promotion of this important community project. This is a veterans service organization that offers a variety of programs, service and events for wounded veterans

The Board members expressed their thanks to Sister Watkins and mutually agreed to support and promote this project. Agreed.

President Glugosh inquired if there is any New Business to be presented.

NEW BUSINESS

The Board members held a lengthy discussion regarding suggested Bylaw recommendations which might be in the best interest of our organization which should be submitted

(Continued from page 13)

to the committee and delegates for consideration.

President Glugosh reminded the Board members that they should submit their recommendations before the April 24, 2015 deadline to the Home Office for either the Bylaws or New Motions Committee to consider.

The Board members then discussed at length several general ideas and suggestions as to how they will affect our organization in the future. Communications with our members is a major priority.

Lastly the Board members agreed that our Director of Sales and Marketing should make an effort to prepare a newsletter which can be sent to as many members as possible keeping them informed of the organization's events and activities. Agreed.

From the Desk of the Supreme President

Thoughts on Fraternalism by Larry M. Glugosh

I hope all of our Slovak Catholic Sokol members and officers

enjoyed their Easter long weekend. It is a special time to spend with family and friends, as we gather together to count our many blessings. Most of all, it is a wonderful time of reflection and prayer to God, as we give thanks for all that we enjoy in our daily lives.

For some of us, we give thanks for the arrival of a new healthy child or grandchild, or it could be a graduation celebration or securing a new job. We might also celebrate a marriage in the family or retirement of someone special, who has sacrificed and

contributed many years of their life for the betterment of our society. Regardless of the reasoning, we all should celebrate what God has provided to us and be thankful for His love, compassion and understanding.

Along this theme of giving thanks, we also can appreciate the quality programs and benefits our fraternal society has to offer to our members including our athletic events, scholarships and soon our summer fraternal programs like Sokol picnics and Slovak festivals. Many of these activities are offered as benefits to our members for holding their life and annuity policies and others are run through our churches and schools. We hope you participate as much as possible and celebrate our Slovak heritage, Catholic faith and fraternal spirit over the coming months.

As some of you are aware, many of our fellow fraternal benefit societies have cancelled or deferred their benefit programs due to their recent financial and/or surplus losses. Proudly, at our recent Board of Directors meeting we recommended to maintain our benefit program for 2015, largely due to our healthy solvency and financial capabilities. I encourage all of our members to take full advantage of the continued investment in our programs and hope to see you at one of the events.

This said, I would like to take a moment to formally congratulate Brother Albert J. Suess, F.I.C. and our Supreme Secretary Steven M. Pogorelec, F.I.C. for another successful sales, marketing and operations year. Their leadership, dedication and guidance enabled our society to generate over \$50M in new life and annuity business in 2014. This volume is \$10M more than 2014 and now brings our total insurance in force to almost \$200M. The home office staff should also be commended for their tireless efforts and commitment to our growth. After all we generated over 15 times as much life and annuity business in 2014, than a few years ago when we only had recommenders selling policies. In addition, I would also like to thank and praise our Board of Directors for continuing to show patience in our business plan and make sound decisions for our organization.

Keep in mind just a few short years ago, we began this new journey to build an external agent sales force because our current recommender structure was not generating the premium income to offset the growing costs and requirements for our society. We are now enjoying the rewards for those decisions. The 2014 results did require us to make an investment in our reserve fund to protect the risk of these new policies. These funds were pulled from our surplus; however the funds have not left the society and in time will be returned to surplus, as the risk for these new policies is reduced. So as you can see, our overall business strategy, direction and sound fiscal decisions have created a

organization

The Supreme President and Board members expressed their thanks and gratitude to the Supreme Secretary for all of his efforts in preparing and planning the meeting and for taking care of all the arrangements and accommodations. Acknowledged.

ADJOURNMENT

There being no further business to discuss, President Glugosh announced that a Mass will be held by our Supreme Chaplain at 5:00 p.m. to fulfill our Sunday obligation and then entertained a motion to adjourn the 2015 First Quarterly Meeting of the Board of Directors.

Supreme Physical Director, Dusan Dorich so moved to adjourn the meeting, seconded by Chairperson of the Supreme Auditors, Michael J. Horvath.

PRAYER

Supreme Chaplain, Rev. Andrew S. Hvozdovic, was called upon for the closing prayer with the Directors giving thanks to Almighty God for the opportunity to meet and conduct a successful meeting.

The Meeting was adjourned at 2:00 p.m. on Saturday, March 21, 2015.

The meeting concluded with the singing of "Hej Slovaci," "God Bless America" and "Nad Tatrou sa blyska."

Places to stay near Slippery Rock University, site of our 47th International Slet

All is in readiness for this summer's exciting 47th International Slet. This year's competition will be held July 14-18 at Slippery Rock University in Slippery Rock, Pa. Our Slet is a wonderful opportunity for many family and friends of our Slet competitors to join them. Many out-of-town Sokol members will join our athletes at this summer's competition. Many of our Sokol families make the Slet week a part of their traditional summer vacation.

I have listed a number of hotels which are nearby Slippery Rock University along with their rates and amenities. Each hotel listed below includes an indoor pool and complimentary breakfast. All of the pools were approximately the same size. When I visited each hotel a few years ago, they all appeared very clean and the staff was friendly and courteous. In my opinion, I believe that the Best Western offers the best deal, since it is significantly cheaper than the other hotels and offers the same amenities.

I suggest that you make early reservations. Call the hotel you are interested in and ask them to set aside a block of rooms for your group. If you are a AAA member, you may be able to get a better rate. Some of the hotels will provide a discount if you mention that you are going to Slippery Rock University for a competition.

2015 Law Day Message From Our General Counsel

On May 1, 2015, America celebrates Law Day. It is a National day set aside to celebrate the rule of law. Law Day underscores how law and the legal process contribute to the freedoms that all Americans

share. Law Day also provides an opportunity to recognize the role of Courts in this democracy and the importance of jury service to maintaining the integrity of the Courts. This year's theme is "Magna Carta: symbol of Freedom Under Law." The words of the Law Day theme are a tangible reminder of our commitment to the rule of law, the connections between Magna Carta and the political and legal history of the United States and the continuing symbolic significance of Magna Carta and the worldwide struggle for rights. The text of

the Magna Carta contains provisions that have withstood the test of time and, in the words of United States Chief Justice John Roberts, "laid the foundation for the ascent of liberty." Magna Carta's most important cited provision, Chapter 39, declares, "No free man shall be seized or imprisoned, or stripped of his rights or possessions ... except by the lawful judgment of his equals or by the law of the land." This provision associates our cherished due process rights with Magna Carta.

Historical Perspective

The Magna Carta turns 800 years old in 2015. The document was first issued in June 1215, as a result of negotiations, ending in a meeting at Runnymede, between King John and rebellious English aristocrats on the brink of civil war. The 1215 Charter was handwritten in Latin on a single piece of sheepskin parchment. Its text runs less than 4,000 words, somewhat shorter than that of the original 1787 United States Constitution.

"Magna Carta" means "Great Charter" in Latin. After it was revised in 1216, a separate charter of the forests spun off and expanded from the 1215 document, was issued. After 1300, Magna Carta was not reissued but simply "confirmed" by English Kings dozens of times in the centuries following the thirteenth.

In the seventeenth century, English jurist Edward Coke interpreted Magna Carta to be part of an "ancient Constitution" that reserved the rights of English subjects, protected by a representative parliament, against the claims of absolutist monarchs.

In the eighteenth century, English jurist William Blackstone developed a numbering conventoin for Magna Carta, which we follow today. By tradition, the various short sections are commonly called "chapters. The famous clause "No free man shall be seized or imprisoned" is numbered chapter 39 of the 1215 Magna Carta. The 1215 issue of the Magna Carta from Lincoln Cathedral became the first charter to travel outside the United Kingdom in 1939, when it came to the United States for display at the New York World's Fair an then remained in Washington, D.C., for safekeeping throughout World War II.

Unlike no other historical document, the Magna Carta symbolizes our deep-rooted tradition of constitutional governance and its associated "rule of law" values. These are commonly understood to mean that "no ruler is above the law" and, often, the granting of political and legal rights in writing. It is important that all of us care about the rule of law and do our utmost to be active participants in the civic rights of our communities.

Symbols of Freedom Under Law

Magna Carta provides that a free man cannot be deprived of life, liberty, or property "except by the lawful judgment of his equals or by the law of the land." The idea of a verdict rendered by one's equals is evident today in the Constitutional right of every United States citizen charged with a serious crime to have a trial by jury.

Magna Carta provides for a basic right of free men to travel in and out of the kingdom. In a recent Supreme Court case the Magna Carta was cited to demonstrate the ancient roots of the right to travel freely. The Court went on to find the right to travel is a part of the liberty of which citizens cannot be deprived without the due process of the law of the Fifth Amendment.

Magna Carta created a recitation of certain basic civil rights given to all free men. It has been referred to as the Declaration off Human Rights for all Mankind. Magna Carta provides guarantees against arbitrarily denying free men of their life, liberty, or prosperity without legal process. This basic principle is the foundation of the United States Constitution's guarantee of the right to due process, a speedy trial, trial by jury, and representation by counsel. It is also the basis of Constitutional protections against unreasonable searches and seizures, excessive fines, and cruel and unusual punishment

Importance of Magna Carta

The Magna Carta is arguably the most significant early influence in the evolution of Constitutional law. Some of the basic principles of the United States Constitution, including the right to a trial by jury, can be traced to the Magna Carta.

2015 Law Day Message From Our General Counsel

(Continued from page 15)

Magna Carta has been cited in over 170 United States Supreme Court opinions. Justice William Brennan stated, "The first eight amendments to our Federal Constitution, or explicit Bill of Rights, owes it parentage to Magna Carta; and Americans regard the enforcement of those amendments as the Supreme Court's most important and demanding responsibility." Justice Anthony M. Kennedy stated, "Magna Carta decreed that no man would be imprisoned contrary to the law of the land. Important as the principle was, the Barons at Runnymede prescribed no specific legal process to enforce it. Holdsworth tells us, however, that gradually the writ of habeas corpus became the means by which the promise of Magna Carta was fulfilled.'

Justice Sandra Day O'Connor stated "Magna Carta has risen above its uncertain beginnings. It has been a crucial influence on the development of the rule of law, first in England and then around the world."

Other historical comments were made by our own President of the United States, Barack Obama, who stated, "Centuries ago, when kings, emperors, and warlords reigned over much of the world, it was the English who first spelled out the rights and liberties of man in the Magna Carta." Winston Churchill stated, "We must never cease to proclaim in fearless tones the great principles of freedom and the right of man which are the joint inheritance of the English-speaking world and which through Magna Carta, the Bill of Rights, the Habeas Corpus, trial by jury, and the English common law find their most famous expression in the American Declaration of Independence." Nelson Mandela stated, "The Magna Carta, the Petition of Rights, and the Bill of Rights

are documents which are held in veneration by democrats throughout the world."

Conclusion

The story of the Magna Carta begins at Runnymede in England in 1215, but it does not end there. It is a story that runs 800 years forward and is still enfolding. It is the story of our rule of law tradition and of how our American system of government is derived from our English legal heritage. The Magna Carta is a shining symbol of our shared legal heritage and of the rule of law as a foundation for freedom and human rights. Perhas more than any other document in human history, the Magna Carta has come to embody a simple but enduring truth: No one, no matter how powerful, is above the law. In the eight centuries that have elapsed since the Magna Carta was created in 1215, it has taken root as an international symbol of the rule of law and an inspiration for many basic rights Americans hold dear today, including the due process, habeas corpus, trial by jury and the right to travel.

In celebrating the 800th Anniversary of the Magna Carta, I ask all Sokols and Sokolky to join on Law Day, May 1, 2015, in celebrating this great charter of liberties and rededicating ourselves to advance the principles of rule of law here and abroad. The rule of law concerns every citizen because it is of fundamental importance to the nation's welfare at home and also it helps to building world peace to an application of the rule of law in relations between nations. On this Law Day, I urge you all to celebrate your freedom, protect it, make it a part of your daily life, and strengthen it by contribution to good government.

Zdar Boh! Respectfully submitted, John D. Pogorelec General Counsel

| Spingtine The trees are starting to bloch, river's are blocson-ing, the days are getting longer, the weather is trying to warm up and the birds are loudly chirping. So many of us look forward to Spring. Here are some great ideas for fun family in the Spring. 1. Plant a garden - have mom or dad take you to the local nursery to choose some plants or flowers that you can plant. You can take care of them all summer and watch them grow. 2. Fly a kite - this is always a fun activity on a windy day. 3. Take a nature hike. Bring along a journal to write down the interesting things you see. 4. Have a picnic. 5. Go jump in the mud puddles when it runs. This is great fun. Tell mom; "Don't worry! t will wash off." 6. Go fishing. This is a nice relaxing way to spend quality time together as a family. 7. Find a local bike trail and take a family bike ride. 8. Play outdoor games like hide-n-seek or release. 9. If there is lake or river nearby, go for a boat ride. 10. Brother Patrick Ryan, O.S.B. Monk of St. Andrew Abbev

On Monday, January 12, 2015, shortly after the conventual morning Mass celebrated in the abbey church of St Andrew Svorad in Cleveland word was received that Brother Patrick Ryan, O.S.B. passed away peacefully at 7:30 a.m. at Regina Health Center in Richfield, Oh. Brother Patrick was 82.

"Patty Ryan," as he like to refer to himself, was the first, full-blooded Irish-American monk in the history of St. Andrew Svorad Abbey that was founded to minister to the spiritual needs of Slovak immigrants. He was born as Donald Ryan, son of Leo and Kathleen Ryan.

He was 1950 graduate of Holv Name High School in Cleveland. A regular at Benedictine High School sporting events, a year later, he sought admission to St. Andrew Abbey. When he was invested as a novice, Abbot Theodore G. Kojis, O.S.B. gave him the religious name "Patrick" in honor of his ethnic heritage. After profession of first vows in 1952, Brother Patrick was assigned to the maintenance department of Benedictine High School and later at St. Andrew Parish in Cleveland. In the late 1960s, he became active in social justice ministries. He took courses in social work at Cuyahoga Community College and worked with Sister Henrietta Gorris, a nursing Sister of Charity of St. Augustine, developing home ministry in the challenging Hough neighborhood near downtown event which did not have the wholehearted support of Brother John over the past more than 60 years.

He was a life member of the Catholic War Veterans Post 1250 and later the Lt. Raymond J. Bowers Post 1466. He was a devoted and active member of the former St. John Nepomucene Parish in Bridgeport, the oldest Slovak parish in New England. Following the parish's closing, he has been active in Holy Name of Jesus Parish in Stratford, Conn.

In addition to his wife, the former Irene Lesko, John is survived by two children. Judy Nist and her husband Dr. Robert Nist of Rhode Island and Jay Sinanis of Trumbull, Conn; two granddaughters, Sarah Nist of California and Stephanie Nist of Massachusetts; and several nieces and nephews. He was predeceased by his daughter, Denise Sinanis; a brother, Paul Sinanis: and a sister. Ann Reilly.

Family, friends and fellow fraternalists paid their respects to Brother John at the Pistey Funeral Home, Inc. Group 2 President Eileen S. Wilson offered a eulogy at the funeral home and led in the recitation of the Prayer for a deceased Sokol member. On March 24, a Mass of Christian burial was celebrated at Holy Name of Jesus Church. Interment with full military honors followed at St. John Cemetery, Stratford. Brother John was a dedicated believer in the high ideals of the fraternal benefit system, and was a wonderful ambassador of Sokol fraternalism. May he rest in peace. Our sympathy goes out to his family.

Cleveland. In the 1970s, Brother Patrick ministered at the former St. Benedict's Parish In the 1980s he became active in the promotion of Marian apparitions of Medjugorge. In the 1990s, he returned to service at Benedictine High School remaining there until 2013 when he moved to Regina Health Center. Throughout his ministry, Brother Patrick was a strong advocate for the unborn. Beginning in the 1990s, he became associated with a lay group that took the name "Rosary for Life." On weekends, he often joined groups praying publicaly in front of three facilities that provided abortions. On weekdays, he went alone and held his own prayer vigils behind these "abortion mills" He reported many interesting conversations he had with staff members and patients who knew why he was there. At the time Brother Patrick stopped his daily prayer witness, two of the facilities had already been closed and a third one was under investigation by the state Health Department.

Brother Patrick always had a twinkle in his eye when he explained his simple understanding of effective prayer. "To Jesus through Mary, with a smile." A Mass of Christian burial was celebrated in the Abbev Church on January 14 Interment followed in Calvary Cemetery. May this kind and loving soul, who so beautifully mirrored the ageless motto of St. Benedict, "Ora et Labora"(to pray and to work), now rest in peace.

ZDAR BOH! Steven M. Pogorelec, F.I.C. Supreme Secretary Slovak Catholic Sokol

Benefits of Teamwork in Sports by Denise DiMartino

Member of the Supreme Physical Fitness Board As the warmer weather approaches, team sports kick into high gear. One of the key benefits of teamwork is cooperation. Both, kids

and adults can learn to cooperate with their fellow teammates, even with those they don't get along with. Unless each and every member of the team is involved, it is impossible to succeed. The players learn to look at the bigger picture, as they realize that individual players are less important than the team.

Another big advantage of teamwork is that it provides the players an opportunity to socialize and build relations, as they come together

with a common interest. Bonding between teammates is the key, as it indicates how successful the team could be. People who actively participate in sports tend to have more self-confidence. This is largely because of the encouragement and words of appreciation from their teammates.

Teamwork involves competing together to attain a common goal, and healthy competition is good. Players learn that they should always strive to give their best, no matter how tough the situation is. Working hard is one quality that is essential for success in all walks of life. Team sports also teach players to accept both winning and losing with the correct attitude. Effective teamwork wins games, not individual players. A good team knows how to use their individual skills to work together and complement each other. We have learned that teamwork is indeed a key to success when it comes to sports and life!

Po skončení stretnutia v Apoštolskom paláci sa slovenská delegácia krátko zastavila na návštevu Baziliky sv. Petra. Ďalším bodom programu prezidenta a jeho delegácie bol obed na pôde slovenského veľvyslanectva, na ktorom veľvyslanec SR pri Svätej stolici Peter Sopko privítal aj viacerých predstaviteľov slovenských náboženského a kultúrneho života v Ríme, osobnosti pôsobiace v Rímskej kúrii, v rámci pápežských univerzít a kolégií a tiež zástupcov rehoľných kongregácií.

Prijatie u Svätého Otca bolo súčasťou oficiálnej návštevy slovenského prezidenta v Taliansku a Vatikáne. Do Ríma pricestoval 8. apríla kedy v Prezidentskom paláci na Kvirináli bilaterálne rokoval s prezidentom Talianskej republiky Sergiom Mattarellom. Hovorili spolu o vzájomnej ekonomickej spolupráci oboch krajín, situácii na Ukrajine, vývoji v krajinách južného susedstva aj o imigrantoch z Afriky, ktorí smerujú do Talianska. Slovenský prezident sa tiež zaujímal o formy a spôsob boja proti korupcii v Taliansku. Talianskeho partnera zároveň pozval na Slovensko. Program návštevy slovenského prezidenta v Ríme pokračoval neformálnou večerou s poslancami medziparlamentnej skupiny priateľstva Slovensko-Taliansko.

Hlava štátu sa o svoje dojmy podelila v oficiálnej správe (na stránke prezident.sk) i na profile na sociálnej sieti. "Pozdravil som pápeža Františka nielen od všetkých veriacich, ale od všetkých obyvateľov Slovenska, a pozval som ho na návštevu našej krásnej krajiny," tlmočil slová prezidenta jeho tlačový odbor. "Vedel som, že prídem za človekom, ktorý bude počúvať, bude ku mne otvorený, bude mi možno chcieť poradiť a vyjadriť svoj názor. Presne taký bol. Bol to nesmierne hlboký rozhovor plný emócií," povedal Kiska.

Z tlačovej správy vyplýva, že spolu diskutovali o úlohe Cirkvi ako inštitúcii, ktorá by mala prinášať do spoločnosti odpúšťanie, lásku, slušnosť, porozumenie. "To je úloha, ktorú pápež František potvrdzuje a považuje za dôležitú v dnešnom nie jednoduchom svete." "Hovorili sme aj o otvorenosti cirkvi, o tom, že musí byť prístupná všetkým ľuďom. Spomenuli sme napríklad krsty detí slobodných mamičiek, alebo sme hovorili o svätom prijímaní ľudí, ktorí sú rozvedení. Pápež František zdôrazňoval to, čo často hovorí, že si cirkev musí nájsť cestu ku každému človeku," informoval ďalei Kiska.

"Potvrdili sa očakávania, s ktorými som za pápežom Františkom išiel. Je to človek, na ktorého môžeme byť hrdí, a mali by sme mu želať veľa sily a zdravia v boji o lepší svet," uvádza Kiska v tlačovej správe Kancelárie prezidenta Slovenskej republiky.

Zákon o občianstve pripravil za necelých päť rokov o slovenský pas 1043 ľudí

Zákon o štátnom občianstve pripravil za necelých päť rokov o slovenský pas 1043 ľudí. Najčastejšie stratili ľudia slovenské občianstvo prijatím českého (365). Vyplýva to zo štatistík Ministerstva vnútra (MV) SR.

O slovenský pas prišli aj osoby, ktoré prijali občianstvo nemecké (210), rakúske (148), britské (96), maďarské (61), americké (31), nórske (29), belgické (21), holandské (19), írske (13), talianske (12), švajčiarske a kanadské (obe po 8), austrálske (5), francúzske (4), islandské, čínske, poľské, švédske a ruské (všetky po 2), ukrajinské, dánske, novozélandské (všetky po 1).

Slovenský pas strácajú ľudia na základe zákona o štátnom občianstve, ktorý prijala prvá vláda Roberta Fica (Smer-SD). Niekdajší kabinet reagoval právnou normou v roku 2010 na maďarský zákon, ktorý od roku 2011 zjednodušuje udeľovanie dvojakého občianstva zahraničným Maďarom. Na základe súčasného zákona prichádzajú o slovenský pas tí, ktorí prijali občianstvo iného štátu.

Od prijatia zákona sa objavili viaceré pokusy o zjemnenie tejto právnej normy, avšak ani jeden z nich nebol úspešný. Súčasnou právnou normou sa zaoberal aj Ústavný súd SR, ktorý nedokázal povedať, či je protiústavná, alebo nie je.

Źmiernením zákona sa zaoberá ministerstvo vnútra. Právnu

normu však dosiaľ nepredložilo. Kedy by mohla byť novela prijatá, nevie odhadnúť. "Predmetná novela sa diskutovala aj na medzinárodnom fóre a diskusia doteraz nebola ukončená, v popredí záujmu medzinárodných inštitúcií je v súčasnosti viac bezpečnostná situácia v Európe," uviedol tlačový odbor kancelárie ministra vnútra. Od februára tohto roka je

účinné nariadenie rezortu o udeľovaní štátneho občianstva SR zosobitných dôvodov. Umožňuje, aby bývalí štátni občania SR, ktorí stratili slovenské občianstvo po 1. januári 1993, mohli požiadať o jeho udelenie.

Pri rozhodovaní o žiadosti sa prihliada aj na skutočnosti, ktoré boli dôvodom straty štátneho občianstva SR, a na spôsob a podmienky, akými žiadateľ cudzí pas nadobudol. "Najmä na existenciu podmienky povoleného, evidovaného alebo registrovaného pobytu v cudzom štáte v čase nadobudnutia cudzieho štátneho občianstva," uviedlo ministerstvo.

Rezort pripomína, že chcel nariadením vyjsť v ústrety občanom, ktorí pre tvrdosť zákona prišli o slovenské občianstvo. "Podľa nášho názoru je takéto riešenie lepšie, ako ďalej čakať na prijatie novely zákona o štátnom občianstve, keďže v súčasnosti nevieme odhadnúť, v akom časovom horizonte bude zákon prijatý," poznamenal rezort vnútra.
