Happy Thanksgiving
Message from our Supreme President
Michael J. Horvath

This year we have been tested to our individual limits. We also have learned we can endure a lot and are all very tolerant with whatever is thrown our way. We have coped with COVID-19 for nine months so far and have more months to go before we are protected from it. There are many who feel down and worn out by all we are to deal with every day. There are our individuals who feel depressed and burned out by the negative aura that besieges all our senses. We witnessed social changes which affected how we think and act. Because of COVID some individuals have isolated themselves, some are worried about financial issues, some have increased medical concerns and wonder when we can return to normal and attend Mass instead of watching it on our TV’s. If at any time in our lives, now is the time to stay positive and rely on our faith and history to show us a better future.

History shows us when mankind experienced disasters, pandemics, or recessions the catastrophe ended the world became better than it was before and during the calamity. Our faith always leads us to a better life if we continue to believe in our Lord and Savior Jesus Christ. All of us must stay strong and cannot feel we are alone or cannot cope anymore. Stay positive, reach out to family and friends to avoid becoming trapped or becoming fatigued by COVID-19 and continue to pray for a better future.

It is November, the clocks have been rolled back to regain the hour we lost back in March. The extra hour of sleep is appreciated by everyone for sure, but that is just one night. Now that we are back to standard time, what type of standard time person are you? Do you enjoy the morning sun and the early dark evening, or do you prefer the dark mornings and the longer daylight in the evening? Whichever person you are these seasonal adjustments make our lives interesting and give us the change of pace to appreciate the variety of life. I am the longer daylight in the evening fan.

This Thanksgiving might be different than any other we have celebrated with our family and friends. Celebrate this Thanksgiving with as much happiness and appreciation as possible; knowing we must do what is right to keep all of us healthy and safe. How you decide to celebrate Thanksgiving make it fun. I want to wish all of our Sokol members and their families and friends a “Happy Thanksgiving”.

Could your future be better financially? Have you have planned for a better future for you and your family? To plan for a better future, you must have in place the proper amount of life insurance to protect you and your family. Take time to analyze your future and if you see your future the same as it is today and not better, you might need additional life insurance. To learn what is the best type of life insurance you need call our Supreme Secretary, Scott T. Pogorelec, F.I.C. or our Director of Sales, Albert J. Seuss, Jr. F.I.C. for their insight and help.

Stay safe and healthy, With God’s Blessing to All!

Zdar Boh!
GIVE THANKS
by Scott T. Pogorelec, F.I.C.

Honor to the soldier and sailor everywhere, who bravely bears his country’s cause. Honor, also, to the citizen who cares for his brother in the field and serves, as he best can, the same cause.

-Abraham Lincoln

Greetings from the Home Office! November is upon us and the season of giving thanks is here. I know this year has been difficult and a trying time for many of our members. The Covid-19 pandemic has interrupted our daily lives in a way that many of us did not see coming. But when an obstacle like this shows itself, it should make us all feel thankful for what we DO have in our lives: God, family, friends, and our unyielding spirit. During this time, we should also be thankful for those individuals who serve our country to protect us.

On Wednesday, November 11th, we will have the opportunity to reflect on those who have served and who are currently serving to defend and protect our American way of life. In 1918, on the 11th hour of the 11th day of the 11th month, an armistice, or temporary cessation of hostilities, was declared between the Allied nations and Germany in World War I, then known as “the Great War.” Commemorated in many countries as Armistice Day the following year, November 11th became a federal holiday in the United States in 1938. In 1954, the name was changed to “Veteran’s Day” in honor of all soldiers who served. These fine men and women make considerable sacrifices during their service and display great courage and valor. As a Fraternal with strong values, it is important for us to recognize these individuals who make considerable sacrifices. We should take this time to acknowledge these brave men and women who put their lives on the line to protect our freedom.

I always like to put a small list out for our members of some things you could do to honor our soldiers and veterans during this season.

1. Express thanks: If you see someone in uniform or someone you know has served, simply say “thank you.”
2. Send a care package: Send a package of gratitude to a soldier. There are many organizations to assist with this, such as Operation Gratitude.
3. Teach: It starts with our children. Let your children know how thankful they should be for our brave men and women in our military. Instilling strong values in our children to show respect is vital in everything we do.
4. Volunteer: Something near and dear to our hearts as a Fraternal. Volunteer at a local VFW or Veteran’s Hospital.
5. Donate: Donate financially to the USO or another organization that helps our Veterans.

These are just a few ways you can show your support and gratitude to our wonderful men and women who serve this great country! Finally, on behalf of my beautiful wife, Maggie, my sons, Reid and Cole, and my entire Family, I wish all our members a wonderful Thanksgiving Holiday. I urge you to value the special time you have with your families and do not take it for granted.

Until next time, stay safe, stay strong, and STAY POSITIVE!

Zdar Boh!

SLOVAK CATHOLIC FALCON
PUBLICATION DATES
The next issue of the Slovak Catholic Falcon will be that of DECEMBER 1, 2020. DEADLINE for all photos and information for this issue will be NOVEMBER 22, 2020.
As far as I understand, there are only two holidays in the Slovak calendar that make people to willingly drive tens, even hundreds of miles across the country to be with their family: Christmas and All Saints’ Day. The only difference being that the former is to be with the living, while the latter is to be with the dead.

On the 1st of November, armed with chrysanths, candles and spades, the Slovak nation literally travels from each corner of the country, to each corner of the country, to visit the graves of their loved ones, maintain them and replace last year’s candles with new ones. There is no cemetery in the country left untouched. Crowded with people, full of flowers (both real and fake) and radiant with candles, the cemeteries on November 1 make for an impressive sight.

There is even a sort of magic to it. This, however, only shows itself when day turns into night. Driving home through the darkness, you will pass a multitude of villages and smaller cities on our way. Wherever you look, the night sky is brightened up with a myriad of candles, shining their lights on the graves of one’s ancestors, adding a faint red glow to the cemeteries from the traditionally red glass candle holders. During the day, the cemeteries show off a flora every gardening store would be jealous of. During the night, however, the cemeteries turn into sacred fields of burning memories.

For that is what this day is all about – remembering the dead.

Slovakia is a country that remembers a lot. Most of its national holidays memorialize important events in the history of the country. From the coming of Christianity in the 9th century (5 July) to the day the Slovaks rose up against Nazi Germany on 29 August 1944 and to the establishment of the Slovak Republic on 1 January 1993, the Slovak nation memorializes moments in history that define their identity. However, on no day in the year is the act of remembrance played out on such a large scale as on the 1st of November – All Saints’ Day. The reason(s) why any country would still celebrate a particular feast day after many, many centuries of its implementation, is sometimes difficult to grasp. Slovakia is for a large part defined by its strong Catholicism – so, celebrating a Christian church feast like All Saints’ Day should come as no surprise. Besides that, Slovakia is a very traditional country – so, why give up on a feast day that has been a tradition for such a long time? One would believe there is another reason why All Saints’ Day, together with Christmas, is considered as one of the most important and widely celebrated feast days in Slovakia: Family.

On 1 November, this appears to be no different. The family visited is no longer among the living. That is not to say that the family is no longer within memory. For an exceptionally long time after their death, family members are being honored and remembered on this day, because they are still important to the descendants. They are important because they define your heritage and therefore deserve the respect to be honored. And not only your own heritage, but also that of your country. A country is not built on wood and stone. A country is built on the people that came before you. Slovakia is built on family. With family as one of the cornerstones of the Slovak society, it is absolutely no surprise that All Saints’ Day hold such place in the hearts of the people. Yes, it is a Christian feast day; yes, it is part of a long-lasting tradition; but it is just as much a day to remember where you come from.

That is what makes All Saints’ Day such a beautiful and, at the same time, powerful day in the Slovak nation’s life.

MINUTES OF THE 2020 SLOVAK CATHOLIC SOKOL MUSEUM BOARD OF DIRECTORS

On September 17, 2020 at 5:00 p.m., S.C.S. Museum President, Edward D. Moeller called the meeting to order and welcomed everyone. It should be noted that a decision was made to delay the usual March annual meeting of the Slovak Catholic Sokol Museum Board of Directors until we could meet in person. By August we realized with COVID-19 looming over us that was not possible. So, it was decided to move ahead with the meeting as a Zoom conference.

Brother Moeller called upon Supreme Chaplain, Rev. Andrew Hvozdovic to open the meeting with a prayer. He then called upon Supreme Physical Directress, Katie Swift to lead the Board in reciting the Pledge of Allegiance.

Brother Moeller proceeded to ask Museum Secretary/Treasurer, James F. Knis to conduct the roll call of the Museum Board of Directors. The roll call was conducted, and all ten Directors were present.

The minutes of the 2019 Annual Meeting of the Slovak Catholic Sokol Museum Board held on March 22, 2019 were approved on a motion made by Supreme Physical Director, John Underation and seconded by Supreme President, Michael Horvath. Motion was approved by a voice vote.

Brother Moeller stated that thanks to the generous donations from members and corporate donors, the Slovak Catholic Sokol Memorial Scholarship Fund continued to accumulate enough funds to allow us to offer three $1,000 scholarships. He acknowledged a generous donation from the PNC Bank was received through the efforts of Mr. Thomas Calimano, Vice-President/Market Director and S.C.S. Portfolio Manager.

Brother Moeller asked Museum Treasurer, James F. Knis for his report. Brother Knis reported the January 1, 2019 balance was $16,207.42 and the December 31, 2019 balance was $16,726.05, for a net increase of $518.63. The museum funds are deposited into two accounts, $5,599.53 with PNC Bank and $11,126.52 with the Sokol Secure Fund. The 2019 total income was $3,567.75, with $3,265 coming from donations and the remainder from interest. The Treasurer reported total expenses for 2019 of $3,049.12, which represents three $1,000 scholarships and $49.12 for other expenses. The Treasurer advised the Board the names of the donors were published in the Falcon.

Supreme Secretary, Scott Pogorelec noted we had 13 visitors to the Museum last year.

Under new business Brother Moeller recommended we award three $1,000 scholarships again this year. A motion was made by Supreme Chaplain, Rev. Andrew Hvozdovic, seconded by General Counsel, John Pogorelec, Jr. and approved by a voice vote.

Supreme Physical Director, John Underation noted we are working on making a video of the Museum in order to share the history of the Sokols with others.

Chairman Moeller asked for a motion to adjourn. The meeting was adjourned on a motion from Supreme Chaplain, Rev. Andrew Hvozdovic and seconded by Supreme Director of Sports and Athletics, James Matlon. Motion was approved by a voice vote.

Supreme Chaplain, Rev. Andrew S. Hvozdovic closed the 2020 Annual Meeting of the Slovak Catholic Sokol Museum Board with a prayer.

Respectfully submitted,

James F. Knis
Museum Board Secretary/ Treasurer

The Fitness Board has also scheduled two virtual events each month from October 2020 through April 2021 to help stay in contact with our younger members.

The 65th International Golf Tournament was cancelled due to the COVID19 Pandemic. In place of the traditional golf tournament, the Physical Fitness Board promoted International Golf Week and close to 100 members from nine Groups joined in the fraternal activity. The pictures were posted on Facebook and many were published in the September edition of the Falcon.

MINUTES OF THE ANNUAL MEETING OF GROUP 16, “REV. FERDIS JURIGA”

President Andrea Papcun called the meeting to order at 4:15 p.m. on October 1 at the home of Athletic Director, Stephen Papcun.

President Papcun offered up an opening prayer and a moment of silence was observed in memory of Group members who have passed away during the past year. In particular, it was with a heavy heart that she noted the passing of Marcella Kovalcik and Madeline Stanek, both former Group 16 officers and fraternal activists.

In attendance at the meeting along with Sister Andrea Papcun were: John Papcun, vice president; Laverne Eland, treasurer; Stephen Papcun, sports director; Donald Papcun, member at large and Sharon Papcun and Paula Papcun, auditors.

Secretary Mark Papcun presented the minutes of the 2019 meeting and confirmed that the minutes from the prior year were sent to SCS headquarters. On a motion by Laverne Eland, seconded by Donald Papcun, the minutes were accepted. Each of the officers then presented their respective reports. On a motion by Sharon Papcun, seconded by Paula Papcun, the reports were accepted. The secretary suggested that members view individual reports to avoid duplication into the minutes.

Laverne Eland, acting treasurer, then presented the financial report. Auditors Paula Papcun and Sharon Papcun verified the report’s details. It was recommended that excess funds be kept in the checking account be invested in the SCS Home Office CD. A take away item was to task both Assembly 214 and Assembly 36 to likewise consider investing funds in the SCS Home Office CD.

Due to the pandemic, all Group efforts were suspended as all members were occupied with safety concerns and a dramatic new way of life.

Discussion related to the generous home office donation of $150 to each Group chaplain’s parish then followed. In the absence of our Group 16 chaplain who was unable to attend this meeting, the $150 was sent to the Rev. Libor Marek at SS. Cyril and Methodius Church in Sterling Heights, Mich.

The next item discussed was the reimbursement of fees and expenses incurred by members who participate in the SCS International Bowling Tournament. Budget limitations were reviewed and established.

Member, Sharon Papcun next presented a special tribute to the recently deceased member, Marcella Kovalcik. She recited prayers from a special prayer book presented to her by Marcella prior to her passing. Sharon also shared a music box rendition of Ave Maria which was a dear possession of Marcella’s.

Duly noted next at the meeting was the inactivity relative to scholarship efforts.

Regarding the upcoming 50th International Slet scheduled for the summer of 2021, special efforts would be made within our Group to encourage participation, particularly in lieu of the $1,500 incentive from headquarters to encourage participation.

Discussion next turned to Group 16’s efforts to fully represent our commitment as a charitable institution. Two new donations were recommended and unanimously approved. These include a donation of $150 to Big Families of Michigan and a donation of $100 to the 42nd annual SS.Cyril and Methodius Appeal of the Slovak Catholic Federation.

Consideration was discussed regarding any type of special celebration to mark the 95th anniversary of founding of Group 16. A decision was reached to postpone any special events to celebrate until the Centennial celebration in five years.

With no further business, on a motion by Laverne Eland, seconded by Andrea Papcun, the annual meeting was adjourned. A closing prayer followed. Zdar Boh!

Respectfully submitted,
Mark Papcun

Abraham Lincoln proclaimed Thanksgiving a national holiday on October 3, 1863. Sarah Josepha Hale, the woman who wrote “Mary Had A Little Lamb,” convinced Lincoln to make Thanksgiving a national holiday after writing letters for 17 years.

Originally, Thanksgiving may not have been celebrated in November at all, but rather mid-October. There isn’t clear historical information on the actual date of the first Thanksgiving. President Lincoln assigned the holiday to fall on the last Thursday in November, possibly to coincide with the date the Pilgrims first landed the Mayflower in New England.

In 1939, president Franklin D. Roosevelt changed the date of Thanksgiving to one week earlier. He hoped that a lengthened holiday shopping season would increase spending and alleviate the crippling Depression. This resulted in two consecutive years of conflicting Thanksgiving Day celebrations, as some states refused to recognize the change. By 1941 president Roosevelt signed a bill making the fourth Thursday in November the official date for Thanksgiving.

The first Macy’s Thanksgiving Day Parade in 1924 featured live animals from the Central Park Zoo. Though the parade stretched just two blocks, New York City went all out for what newspapers were calling “a marathon of mirth.” In addition to four bands, a large Santa float, and costumed Macy’s employees, also participating in the parade were live animals including bears, elephants, camels, and monkeys from the zoo.

In 1953, the food corporation Swanson overestimated how much turkey would be consumed on Thanksgiving and had to get creative with the 260 tons of leftover meat. Using 5,000 aluminum trays the corporation created a meal with turkey, cornbread dressing and gravy, peas, and sweet potatoes, selling it for 98 cents. In the first full year of production, they sold ten million of them.

The menu for the first Thanksgiving dinner in Plymouth in 1621 likely included lobster, seal, and swans. The friendly feast between Pilgrims and the Wampanoag Native Americans lasted for three days, during which both parties contributed to the meal. Though there are few records of the actual menu, it is known that the Pilgrims hunted for local fowl (swans very much included) and the Wampanoag brought five deer.

Thanksgiving Day football began long before the country could watch the sport on TV. Football wasn’t even a professional sport when the Thanksgiving game tradition took hold. In 1876, Yale played Princeton in the first ever Thanksgiving Day football match. At that point, the sport was still evolving from a rugby hybrid into the game we know today. Games stayed on the college and high school level for nearly fifty years. Eventually, when the National Football League was founded in 1920, it began hosting as many as six Thanksgiving matches every year.

The first NFL games were played on Thanksgiving in 1920.

The history of U.S. presidents pardoning turkeys is patchy. Harry Truman is often credited with being the first president to pardon a turkey, but that’s not quite true. He was the first to receive a ceremonial turkey from the National Turkey Federation – and he had it for dinner. John F. Kennedy was the first to let a Thanksgiving turkey go, followed by Richard Nixon who sent his turkey to a petting zoo. George H.W. Bush is the president who formalized the turkey pardoning tradition in 1989. In 2005 and 2009, the turkeys went to Disneyland and Walt Disney World parks to serve as grand marshal in their annual Thanksgiving parades.

Americans prepare 46 million turkeys for Thanksgiving each year. Minnesota produces more turkey than any other state in America. North Carolina, Arkansas, Indiana, and Missouri are also top producers.

President Benjamin Franklin thought the turkey should be the United States’ official bird, rather than the bald eagle. “I wish the bald eagle had not been chosen as the representative of our country; his is a bird of bad moral character,” he once wrote. Apparently, Franklin also noted that the turkey was a “much more respectable bird.”

There are four towns in the United States named “Turkey.” They can be found in Arizona, Texas, Louisiana, and North Carolina. There are also two townships in Pennsylvania called Upper Turkeyfoot and Lower Turkeyfoot.

**Turkey Safety**

- Avoid fresh, stuffed turkeys; buy your turkey at least 1-2 days before you cook it, and keep it in the fridge; keep it in the freezer if you’ve bought it earlier.
- Thaw in the refrigerator (every 4-5 lbs. needs one day to thaw). Submerge the turkey (wrapped in leak-proof packaging) in cold water (every 1 lb. needs 30 minutes to thaw) that should be changed every half hour.
- Cook immediately after thawing.
- Opt to cook the stuffing separately.
- Use a thermometer on the innermost part of the thigh and wing, as well as the thickest portion of the breast, to ensure that the turkey is well cooked.
- Don’t carve at once; give the juices time (20 min.) to settle.
- Wash your hands with soap and water before and after handling food.
- Keep all surfaces and utensils clean.
- Never handle cooked and raw food together, in order to avoid cross-contamination.
- Keep raw meat away from vegetables or other uncooked food.
Celebrating virtually or with members of your own household pose low risk for spread. In-person gatherings pose varying levels of risk. Event organizers and attendees should consider the risk of virus spread based on event size and use of mitigation strategies, as outlined in the Considerations for Events and Gatherings. There are several factors that contribute to the risk of getting infected or infecting others with the virus that causes COVID-19 at a holiday celebration. In combination, these factors will create various amounts of risk, so it is important to consider them individually and together:

- Higher levels of COVID-19 cases and community spread in the gathering location, as well as where attendees are coming from, increase the risk of infection and spread among attendees. Family and friends should consider the number and rate of COVID-19 cases in their community and in the community where they plan to celebrate when considering whether to host or attend a holiday celebration. Information on the number of cases in an area can be found on the area's health department website.

- Indoor gatherings generally pose more risk than outdoor gatherings. Indoor gatherings with poor ventilation pose more risk than those with good ventilation, such as those with open windows or doors.

- Gatherings that last longer pose more risk than shorter gatherings.

- Gatherings with more people pose more risk than gatherings with fewer people. CDC does not have a limit or recommend a specific number of attendees for gatherings. The size of a holiday gathering should be determined based on the ability to reduce or limit contact between attendees, the risk of spread between attendees, and state, local, territorial, or tribal health and safety laws, rules, and regulations.

- Gatherings with attendees who are traveling from different places pose a higher risk than gatherings with attendees who live in the same area. Higher levels of COVID-19 cases and community spread in the gathering location, or where attendees are coming from, increase the risk of infection and spread among attendees. The behaviors of attendees prior to the gathering – Gatherings with attendees who are not adhering to social distancing (staying at least 6 feet apart), mask wearing, hand washing, and other prevention behaviors pose more risk than gatherings with attendees who are engaging in these preventative behaviors.

- Gatherings with more preventive measures, such as mask wearing, social distancing, and hand washing, in place pose less risk than gatherings where fewer or no preventive measures are being implemented.

PEOPLE WHO SHOULD NOT ATTEND IN-PERSON HOLIDAY CELEBRATIONS
- People with or exposed to COVID-19
- Do not host or participate in any in-person festivities, if you or anyone in your household has been diagnosed with COVID-19 and has not met the criteria for when it is safe to be around others
- Has symptoms of COVID-19
- Is waiting for COVID-19 viral test results
- May have been exposed to someone with COVID-19 in the last 14 days
- Is at increased risk of severe illness from COVID-19
- People at increased risk for severe illness
- If you are at increased risk of severe illness from COVID-19, or live or work with someone at increased risk of severe illness, you should avoid in-person gatherings with people who do not live in your household.

Avoid larger gatherings and consider attending activities that pose lower risk (as described throughout this page) if you decide to attend an in-person gathering with people who do not live in your household.

HOSTING A HOLIDAY GATHERING
If you will be hosting a celebration, follow CDC tips for hosting gatherings. Below are some additional considerations for hosting a holiday celebration:

- Host outdoor activities rather than indoor activities as much as possible. If hosting an outdoor event is not possible, and you choose to host an indoor event, avoid crowded, poorly ventilated, or fully enclosed indoor spaces.

- Increase ventilation by opening windows and doors to the extent that is safe and feasible based on the weather.

- Host activities with only people from your local area as much as possible.

- Limit numbers of attendees as much as possible.

- Provide updated information to your guests about any COVID-19 safety guidelines and steps in place to prevent the spread of the virus.

- Provide or encourage attendees to bring supplies to help you and others stay healthy. For example, extra masks (do not share or swap with others), hand sanitizer that contains at least 60% alcohol, and tissues.

- If you are planning in-person holiday gatherings with people outside of your household, consider asking all guests to strictly avoid contact with people outside of their households for 14 days before the gathering.

ATTENDING A HOLIDAY GATHERING
If you will be attending a celebration that someone else is hosting, follow CDC Considerations for attending an event or gathering. Below are some additional considerations for attending an in-person holiday gathering:

- Outdoor activities are safer than indoor activities. If participating in an outdoor event is not possible, and you choose to attend an indoor event, avoid crowded, poorly ventilated, and fully enclosed indoor spaces. Increase ventilation by opening windows and doors to the extent that is safe and feasible based on the weather.

- Check with the event host, organizer, or event venue for updated information about any COVID-19 safety guidelines and if they have steps in place to prevent the spread of the virus.

- Bring supplies to help you and others stay healthy. For example, bring extra masks (do not share or swap with others), hand sanitizer that contains at least 60% alcohol, and tissues.

- If you are planning to attend in-person holiday gatherings with people outside of your household, consider strictly avoiding contact with people outside of your household for 14 days before the gathering.

DURING THE CELEBRATION
Follow these tips to reduce your risk of being exposed to, getting, or spreading COVID-19 during the celebration:

- Social distance and limit close contact

- Maintain a distance of at least 6 feet or more from people you don’t live with. Be particularly mindful in areas where it may be harder to keep this distance, such as restrooms and eating areas.

- Avoid using restroom facilities at high traffic times, such as at the end of a public event.

- Avoid busy eating areas, such as restaurants during high volume meal times, if you plan to eat out at a restaurant.

- Minimize gestures that promote close contact. For example, do not shake hands, elbow bump, or give hugs. Instead wave and

**NOVEMBER 1ST – ALL SAINTS DAY** – celebrates the lives of all saints. November 1 is also known as All Souls Day, a time for families to remember and honor loved ones who have passed away. All Souls Day, in which Christians essentially do the same, is in some countries celebrated the following day, November 2.

**NOVEMBER 11TH – VETERANS DAY** – we honor those who have served in the United States Armed Forces, falls annually on November 11. It also coincides with Armistice Day and Remembrance Day, which mark the end of World War I. Hundreds of people don’t know why we celebrate Veterans Day. In November 1918, the main hostilities were ended that are the main reasons for the First World War. Millions of people died in this Great War. Soldiers and civilians sacrificed to defend the states. In 1919, the US president Woodrow Wilson issued an order to celebrate this day to honor all the veterans and civilians that had died.

**NOVEMBER 26TH – THANKSGIVING DAY** – is regarded as being the beginning of the fall–winter holiday season, along with Christmas and the New Year, in American culture. The event that Americans commonly call the “First Thanksgiving” was celebrated by the Pilgrims after their first harvest in the New World in October 1621.

ROBERT FICO SUGGESTS COMMEMORATING 1938 MUNICH BETRAYAL IN SLOVAKIA

If there are voices in Parliament calling for the creation of a commemoration day to recall the 1968 invasion of erstwhile Czechoslovakia by Warsaw Pact armies, then it’s appropriate for Smer-SD to initiate also the creation of 1938 Munich Betrayal commemoration day, as Czechoslovakia was the Munich Agreement’s sole victim, TASR learnt from Smer-SD press department on Tuesday.

According to Fico, September 29 should be commemorated in Slovakia as a memento of the fact that big countries such as Great Britain, Germany or France will never take interests of small countries into consideration, if they stand in the way of their own interests. “The Munich Agreement was the worst betrayal of the Slovaks and Czechs in history. If another serious crisis situation ever emerges, we need to think hard about how to respond because we can’t rely on anyone other than ourselves. History serves as evidence to that,” he said.

Fico pointed out that Slovakia lacks a sizeable military. Therefore, the best strategy for Bratislava is the diligent observance of international law. “The Munich Betrayal must be commemorated along with the invasion of Czechoslovakia by the Warsaw Pact armies in 1968, which meant the end of democratic process in Czechoslovakia while the whole world watched. In this context, both events bear striking similarities,” he added.

The outcome of the 1938 Munich Agreement was the essential surrender of Czechoslovakia and its handing over to Adolf Hitler, who split the state and ended its existence. “In 1938, Czechoslovakia was practically the only democratic country in Central and Eastern Europe. Economically speaking, we were a very strong country, even the tenth most developed globally according to statistics. Hitler received our land, our armament industry and our fortifications practically for free,” declared Fico.

PREMIER AND DEFENCE MINISTER HONOR WWII HEROES AT DUKLA MEMORIAL

Prime Minister Igor Matovic and Defence Minister Jaroslav Nad (both OLaNO) commemorated the victims of WWII on the occasion of the 76th anniversary of the Battle of the Dukla Pass at the Dukla memorial and in the town of Svidnik (Presov region) on Tuesday.

Official ceremonies to mark the event have been cancelled due to the coronavirus outbreak. State and local government officials and members of the public came to pay homage to the victims individually, however.

“It’s very important to remember the people who fought for our freedom. We should never forget them, and that’s why we came here. I think that the coronavirus outbreak in a way symbolically emphasises the contrast between freedom and war, such as the current period in which we aren’t absolutely free, and a period when we weren’t free at all, as we had occupiers here. We can all the more jointly long for freedom, either freedom from occupiers like 76 years ago, or freedom from the virus and the situation that is in place here [at the moment],” stated Matovic.

Matovic wished good health to war veterans who weren’t able to come, so that he can meet them at Dukla next year.

According to Nad, this was a symbolic commemoration of a significant historical event. He’s pleased that people visit Dukla all year round. “This year the highest-ever number of tourists visited places in which our grandfathers fought for our freedom. I believe that we will manage to invest a little bit more money in this place in order to bring history to people, mainly young people, so that they can better understand it,” stated Nad.

The Battle of the Dukla Pass began on September 8, 1944 and was expected to last only a couple of days, but due to stiff opposition the Soviet forces weren’t able to reach the other side of the pass until October 6. The operation, which ended up lasting a total of 80 days, claimed over 70,000 casualties. Subsequently, one of the valleys in the pass came to be known as the Valley of Death.

Once a famous copper village, Špania Dolina is a village in central Slovakia, near the city of Banská Bystrica surrounded by the Staré Hory and Velká Fatra mountains. Prehistoric mining tools excavated in the territory of Špania Dolina have been dated from as early as 2000-1700 BC. Copper from Špania Dolina has also been identified in bronze artifacts from the Balkans and the Middle East. It indicates that the local mines were part of an extensive network of trade routes during the Bronze Age. However, the first written reference to the village itself only appeared in 1254. Abundant deposits of copper and silver were exploited first by miners from Banská Bystrica and after 1494 by one of the first multinational corporations, founded by the affluent Fugger and Thurzo families. The ancient tradition of making bobbin lace led to the establishment of a bobbin lace craft school in 1883. The copper mines were closed down in 1888 and the economy of the village is now based primarily on tourism. Wooden miners’ houses, now reconstructed, were originally built in the 17th and 18th centuries. The so-called “Knocker” from the 16th century served as a special bell tower for calling the miners to work in the morning. Ancient shafts and other technical monuments are scattered in the nearby forests. Špania Dolina is also a hub of hiking, mountain biking, and cross-country skiing trails.
SLOVAKIA TO SIGN DECLARATION ON 5G NETWORK COOPERATION WITH USA

Slovakia will sign a joint declaration with the United States concerning their determination to strengthen cooperation in the field of 5G networks, according to information on the declaration okayed by the Cabinet on Wednesday.

The Foreign Affairs Ministry as the submitter of the document points to the fact that the development of modern information technologies, including 5G networks, is a necessary condition for further technological development and for ensuring that modern societies prosper, while dynamic development in this area doesn’t have only technical, but also strategic and security dimensions.

The declaration is based on relevant European Union documents in the field of promoting a common approach to the security of 5G networks, including the European Commission’s Communication on ‘Secure 5G Deployment in the EU: Implementing the EU Toolbox’, which identifies the rules and requirements for building and launching secure 5G networks.

The ministry noted that analogous joint declarations on secure 5G networks have already been signed with the Czech Republic, Estonia, Latvia, Lithuania, Poland, Romania and Slovenia.

WELLNESS CENTRES, AQUAPARKS, CINEMAS AND THEATRES IN SLOVAKIA ARE CLOSED

Concerning the rapidly raising coronavirus outbreak in Slovakia the Government’s crisis management team announced that anti-epidemiological measures will be tightened.

All swimming pools, aquaparks, wellness centres, except for natural health spas, and theaters and cinemas will be closed indefinitely as of 6 a.m. on Thursday, October 15.

Meanwhile, public catering facilities will be allowed to open under the condition that they will refrain from serving food and beverages inside their premises. They’ll be allowed to serve customers sitting outside and to provide take-out meals. The said facilities will have to close at 10 p.m., except for home delivery services and facilities that serve food via a window.

When it comes to other businesses, only one customer per 15 square metres will be allowed inside at any given time. This restriction doesn’t concern children younger than 14 who are accompanied by adults. If the area of an establishment doesn’t exceed 15 square metres, only one customer will be allowed inside.

Shopping centers will be obliged to measure visitors’ temperature upon entry. Only those whose body temperature doesn’t exceed 37 degrees Celsius will be allowed to enter. The one customer per 15 square metres rule will apply for shopping centers as well. Public catering facilities inside shopping centres will only be allowed to serve take-out orders, as it will be prohibited to consume food in such centers.

Special shopping hours for the elderly (65+) at groceries and drug stores are being set for every working day from 9 a.m. to 11 a.m.

A maximum of six people, including a priest, can take part in a holy mass as of Thursday, October 15. The Slovak Bishops Conference (KBS) has announced that mass events aren’t completely banned in Slovakia as of Thursday, but attendance is limited to six. Following consultation with the Public Health Office, KBS spokesman Martin Kramara confirmed that this rule applies to church services as well. “Although it’s not a big change, it will still be feasible for at least a family to come to a holy mass,” said Kramara.

ULTRAS MOUNT VIOLENT PROTEST BEFORE GOV’T OFFICE, POLICE USES WATER CANNON

A crowd of several hundred ultras protested on Saturday in front of the Government Office against the COVID-19 epidemiological measures, demanding the ouster of Prime Minister Igor Matovic.

The protesters were kicking the gate of the Government Office and throwing flares over it, while shouting profanities against the Prime Minister.

The unrest prompted the police to use tear gas and water cannon to disperse the crowd, while the ultras responded by throwing stones and bottles at the riot unit.

In response, Petra Friese of the Interior Ministry told TASR that the protest by ultras was absolutely irresponsible, while Interior Minister Roman Mikulec (OLaNO) posted on Facebook that the protesters won’t escape justice.

“It’s really pathetic that at the time when the number of the infected with COVID-19 is on the alarming rise and the state of emergency is in effect, with the ban on gathering, there are still people who respect none of that,” pointed out Mikulec. He added that the protest lacked substance and its only aim was to provoke, a pitiful demand of the ultras and far-right to attract attention.

Mikulec thanked the police officers for their “fantastic work”. “No, don’t let us get provoked. We won’t play their primitive game, as their only goal is to start a brawl and get into a fight,” he added.

VIENNA REGIONAL COURT SENTENCES MISENKA TO 20 YEARS IN PRISON

In the case of the explosion at a company called Euromont in Topolcany (Nitra region) in 2009, Viliam Misenska will serve only 20 years in prison, TASR was told by Vienna Regional Court vice-president Christina Salzborn on Tuesday.

The verdict was made at the beginning of October by Higher Regional Court Vienna, which lowered the original sentence by three years made by the Specialised Criminal Court (SIS) in Pezinok (Bratislava region).

Salzborn went on to say that the Regional Court in Vienna first ruled on the reduction of the sentence of Misenka, who was detained by the Austrian police in Baden near Vienna on July 2 this year. Misenka (63) filed a complaint against the ruling. “Misenska’s complaint was rejected by the Higher Regional Court in Vienna on October 8 as unfounded, confirming the decision of the first-instance court,” said Salzborn.

Misenska is therefore no longer in pre-trial custody but has been placed in prison. There is no appeal against the decision of the court of appeal. Under Austrian law, Misenska could have served either a 20-year sentence or a life sentence.

Misenska, who was in the past investigated for several crimes, has been on the run since 2018, when he was sentenced to 23 years by the Supreme Court in Slovakia for ordering a murder. The case concerned an explosion at Euromont in Topolcany in 2009, in which one person was killed and several other people sustained injuries.

The Slovak police also had to search for him earlier. In that case he was tracked down in Venezuela and escorted back to Slovakia in 2013, where he ended up spending two years in custody. Misenska couldn’t be extradited to Slovakia the second time as he also has Austrian citizenship.

Avoid any self-serve food or drink options, such as buffets or self-serve condiments, and identify one person to serve shared items, like salad dressings, food containers, plates and utensils on it and then touching their own mouth, nose, or possibly their eyes. However, this is not thought to be the main way that the virus is spread. Remember, it is always important to follow good hygiene practices to reduce the risk of illness from common foodborne germs.

Make sure everyone washes their hands with soap and water for at least 20 seconds before and after preparing, serving, and eating food. Use hand sanitizer with at least 60% alcohol if soap and water are not available.

Instead of potluck-style gatherings, encourage guests to bring food and drinks for themselves and for members of their own household only.

Limit people going in and out of the areas where food is being prepared or handled, such as in the kitchen or around the grill, if possible.

Wear a mask while preparing or serving food to others who don’t live in your household.

If serving any food, consider having one person serve all the food so that multiple people are not handling the serving utensils.

Use single-use options or identify one person to serve shared items, like salad dressings, food containers, plates and utensils, and condiments.

Avoid any self-serve food or drink options, such as buffets or self-serve potlucks, salad bars, and condiment or drink stations.

Use grab-and-go meal options, if available.

If you choose to use any items that are reusable (e.g., seating covers, tablecloths, linen napkins), wash and disinfect them after the event.

Look for healthy food and beverage options, such as fruits and vegetables, lean proteins, whole grains, and low or no-calorie beverages, at holiday gatherings to help maintain good health.

AFTER THE CELEBRATION

If you participated in higher risk activities or think that you may have been exposed during your celebration, take extra precautions (in addition to the ones listed above) for 14 days after the event to protect others:

– Stay home as much as possible.
– Avoid being around people at increased risk for severe illness from COVID-19.

Consider getting tested for COVID-19.

If you develop symptoms consistent with COVID-19, such as fever, cough, or shortness of breath, or if you test positive for COVID-19, immediately contact the host and others that attended the event or celebration that you attended. They may need to inform other attendees about their possible exposure to the virus. Contact your health care provider and follow the CDC-recommended steps for what to do if you become sick, and follow the public health recommendations for community-related exposure.

If you are waiting for your COVID-19 test results, stay home until you have a result, and follow pdf iconCDC's guidancepdf icon to help stop the spread of COVID-19.

If you have been diagnosed with COVID-19, a public health worker may contact you to check on your health and ask you who you have been in contact with and where you’ve spent time in order to identify and provide support to people (contacts) who may have been infected. Your information will be confidential. Learn more about what to expect with contact tracingpdf icon.

If you are notified that you were a close contact of someone who tested positive for COVID-19:

– Stay home for 14 days from the last time you had contact with that person.
– Monitor for symptoms of coronavirus.
– Get information about COVID-19 testing if you feel sick.
– Thanksgiving is a time when many families travel long distances to celebrate together. Travel increases the chance of getting and spreading the virus that causes COVID-19. Staying home is the best way to protect yourself and others. If you must travel, be informed of the risks involved.

LOWER RISK ACTIVITIES

– Having a small dinner with only people who live in your household
– Preparing traditional family recipes for family and neighbors, especially those at higher risk of severe illness from COVID-19, and delivering them in a way that doesn’t involve contact with others
– Having a virtual dinner and sharing recipes with friends and family
– Shopping online rather than in person on the day after Thanksgiving or the next Monday
– Watching sports events, parades, and movies from home
– Moderate risk activities
– Having a small outdoor dinner with family and friends who live in your community
– Lower your risk by following CDC’s recommendations on hosting gatherings or cook-outs.
– Visiting pumpkin patches or orchards where people use hand sanitizer before touching pumpkins or picking apples, wearing masks is encouraged or enforced, and people are able to maintain social distancing
– Attending a small outdoor sports events with safety precautions in place

HIGHER RISK ACTIVITIES

Avoid these higher risk activities to help prevent the spread of the virus that causes COVID-19:

– Going shopping in crowded stores just before, on, or after Thanksgiving
– Participating or being a spectator at a crowded race
– Attending crowded parades
– Using alcohol or drugs, which can cloud judgement and increase risky behaviors
– Attending large indoor gatherings with people from outside of your household

**BEST THANKSGIVING SIDE DISHES**

**ROASTED GARLIC MASHED POTATOES**

3 lb Russet potatoes, peeled and cubed  
2 sticks butter  
1 cup whole milk  
3 bay leaves  
2 garlic heads  
salt & pepper

Preheat oven to 350°F. Peel each garlic clove off the head and remove the dried skin down to the last layer. Spread out in a single layer on a baking sheet. Roast for 15 minutes until garlic is golden brown and tender. Set aside. Peel the potatoes and cube into 2-inch pieces. Fill a large pot with cold water and add potatoes and bay leaves. Bring the water to a boil and continue to simmer until potatoes are just fork tender, but not falling apart. Completely drain the potatoes and place it back on the heat. Keep the burner on the lowest setting until the potatoes have completely dried out. The dryer the potatoes, the more liquid they will reabsorb. Remove the bay leaves at this time. One at a time, discard the outer layer of each garlic clove and add it to the pot of potatoes. Using a ricer or potato masher, mash potatoes with garlic until smooth.

In a small sauce pan melt butter into the milk until both are hot. Using cold dairy will compromise the texture of the potatoes. Add the milk and butter to the potatoes stirring quickly with a large spoon until fully absorbed. Salt and pepper to taste.

**TURKEY GRAVY**

Turkey neck and giblets (or turkey neck only)  
2 carrots, coarsely chopped  
2 ribs of celery, coarsely chopped  
1 onion, quartered  
2 cloves garlic, whole  
2 sprigs of fresh rosemary  
2 sprigs of fresh thyme  
2-3 fresh sage leaves  
6 cups water

**Gravy:**  
4 tablespoons fat from turkey drippings  
6 tablespoons all-purpose flour  
juice from turkey drippings  
homemade turkey stock (instructions below)  
salt and pepper to taste

**Turkey Stock:**

In a large pot, add turkey neck, giblets (optional), carrots, celery, onion, garlic, rosemary, thyme, sage and water. Bring to a boil over medium high heat. Reduce heat and maintain a simmer. Cover and simmer for 2 hours. Strain the turkey stock in a mesh sieve and discard solids. Set aside.

**Make the Gravy:**

Remove your cooked turkey from the roasting pan and pour the drippings and brown bits into a clear measuring cup. Let it sit for a few minutes to allow the fat and juices to separate. Remove the fat by titling the measuring cup gently and use a spoon to skim out the fat. Place the fat in a small bowl and set aside. Add turkey stock to the juices until you have 4 cups of liquid in total. In a medium saucepan, add 4 tablespoons of fat and heat over medium high heat. Add flour and whisk together. Cook for a few minutes. Add the liquid mixture slowly and whisk continuously to prevent clumping. As the sauce thickens, add more liquid. Allow mixture to come to a simmer and simmer for 5 minutes uncovered. If you prefer a thicker gravy, continue to simmer until it reaches a consistency that you like. Strain the gravy through a mesh sieve. Add salt and pepper to taste.

**Herb-roasted sweet potatoes**

2 medium sweet potatoes, cut into 1 inch cubes  
2 tablespoons olive oil  
2 cloves garlic, pressed or minced  
1 teaspoon fresh thyme leaves  
1/4 teaspoon Italian seasoning  
salt and ground black pepper, to taste

Garnish (optional):  
chopped parsley  
Parmesan cheese

Preheat oven to 400°F. Combine all ingredients in baking tray or 10” x 10” casserole dish and toss to coat. Bake for 35 to 40 minutes until tender and golden brown, giving it a stir halfway through baking. Sprinkle with chopped parsley and Parmesan cheese (optional).

**ONE PAN ROASTED HARVEST VEGETABLES WITH BUTTERNUT SQUASH**

4 cups butternut squash, peeled, seeded, and cut into 1-inch cubes  
2 cups brussels sprouts, halved  
2 cups baby potatoes, halved  
1 tablespoon olive oil  
2 tablespoons fresh thyme, finely chopped  
1 tablespoon balsamic vinegar  
1/2 tablespoon salt  
1/2 tablespoon ground black pepper

Preheat oven to 375 F. Add the chopped butternut squash, brussels sprouts, and potatoes into a large 1/2 pan baking sheet. Add in olive oil, thyme, balsamic vinegar, salt and pepper. Toss to combine until all vegetables are evenly coated. Spread the vegetables evenly on the pan into a single layer. Transfer the sheet pan to the oven and bake for 40 minutes until the butternut squash and potatoes are tender.

**THANKSGIVING GREEN BEANS**

1 tbsp olive oil  
3/4 cup finely chopped red onion or shallots  
2 tbsp minced garlic  
1 lb fresh green beans  
15 sprigs of fresh thyme  
1/2 tsp red wine vinegar optional  
salt and pepper

Heat up a skillet over medium heat, then add the olive oil. Add the onion and season with a pinch of salt and pepper. Cook for 10 minutes, until softened. Add the minced garlic and cook for 1 more minute. Add the green beans and thyme, and season with more salt and pepper. Saute for 15 minutes, until the raw bite has been taken out but they are still crisp and al dente. Remove the thyme stems before serving, and add the vinegar for a little bit of brightness.

Uskutoční sa najväčšia slovenská konferencia o živote bez odpadu

Zo skupiny vitamínov D sú najdôležitejšie vitamín D3 a vitamín D2. Váčšiu vitamín D3 si organizmus tvorí v koži účinkom ultralavolajového žiarenia. Podla odborníkov je na jeho tvorbu potrebný pobyty na slnečnom svete až 15 až 20 minút denne bez opalovacieho krému, nie pri extrémných teplotách a v čase najsilnejšieho žiarenia.

“Zo slnečného žiarenia získame 90 percent vitamínu, iba malá časť je prijatá z potravy živočišného pôdov, ako je vajecný žltok alebo olej z rybacej pečene,” uviedla lekárka interného oddelenia nemocnice v Bánovciach nad Bebravou Soňa Lobotková.

Medzi včasné príznaky nedostatku vitamínu D podľa jej patrí znížená hladina vápnika, neskoré zradyť znanok vyšmeť podalší kosti a deformities kostí, čo je spôsobené nedostatkom vitamínu D v živote.

„Nedostatok vitamínu D tiež prispieva k zvýšeniu rizika rizika úrazov podľa lekárky interného oddelenia nemocnice v Bánovciach nad Bebravou Soňa Lobotková.

V zimných a jesenných mesiacoch je riešením zvýšiť prísun vitamínu D, a to napríklad cez výživové doplnky ako slnečná žiarenia. V zime je na severnej pologuli zmenený uhol dopadu slnečného žiarenia, teda je potrebné podľa lekárky interného oddelenia nemocnice v Bánovciach nad Bebravou Soňa Lobotková, aby sa riešila situácia nedostatku vitamínu D.
